Supplies for Commercial Growers . .	80-82

At prices quoted, Burpee pays the transportation anywhere in the United States on everything offered in this catalog, except where noted for Grass Seed, Peat Pots, and certain supplies.

WHOLESALE BLUE LIST PRICES

FOR EXCLUSIVE USE OF COMMERCIAL GROWERS

Effective December 1, 1960, all invoices for purchases will be charged at the prices quoted in this Burpee Blue List, unless Special Offers are made by letter or telegram and referred to when the order is placed.

We expect to adhere throughout the winter and spring to the prices quoted herein, unless some causes beyond our control require a change, in which case we shall be governed by the market. All goods are offered subject to prior sale, and we reserve the right to change prices without notice if it should become necessary.

Burpee's Blue List for Exclusive Use of Commercial Growers

This book of Burpee's special Blue List prices is for the exclusive use of those who grow vegetables or flowers to sell; because of the larger quantities of seeds required, they are entitled to these Wholesale Prices. We are anxious to do all we can to help you make a success of your business by supplying the finest seeds it is possible to furnish. As a grower you know the importance of good seeds; you cannot take chances on the quality of the seeds from which you expect to make your profits. Sow Burpee's Tested Seeds—you can rely on them. They are guaranteed. Read the money-back Burpee Guarantee on this page.

If any of your friends, who grow vegetables or flowers to sell, do not have our Blue List Catalog, have them write us direct for a copy. It will be mailed to them free if they grow vegetables or flowers commercially.

Terms of Payment

Our terms are cash with order unless you have an account with us or are satisfactorily rated by the commercial agencies. To those who have accounts and others of approved credit, our terms are *60 days net*.

New customers, unless satisfactorily rated with the commercial agencies, should furnish us with at least three trade references. Orders from new customers amounting to less than \$5.00 should be accompanied by cash.

Orders for seeds (but not roots) will be shipped C.O.D. upon receipt of a deposit of 25% of the value of the order, with C.O.D. charges extra.

Burpee's Retail Seed Catalog

If you are a customer you will receive a copy of Burpee's Annual Garden Book for 1961. If you would like to have us begin serving you we will be happy to send you a copy, free and postpaid, on request. This comprehensive guide gives you full descriptions of the best varieties of vegetables, flowers and bulbs. You will find it a reliable source of valuable information. If you would like another copy for yourself, friend or neighbor, just let us know.

Order Early

There are always shortages in some varieties of flower and vegetable seeds. So that you will have the varieties you want at the time you need them we suggest you order early.

Burpee Pays the Transportation

Burpee will pay the transportation on everything listed in this catalog to any part of the United States with the exceptions as noted for Grass Seed, Peat Pots, Plant Bands, Red Pots and a few products listed on pages 81 and 82. Shipment will be by Parcel Post, Rail Express, Motor Express or Rail Freight, whichever is the more economical.

Flower Bulbs and Roots

On all varieties offered in our 1961 Retail Catalogs but not listed in this book, we will allow you a 10% discount from our 1961 Retail Catalog prices. No discount will be allowed on flower bulbs or roots if the retail value of goods ordered at one time is less than \$5.00.

Foreign Orders

Marine and/or War Risk Insurance will be effected on foreign shipments only when so directed. Special packing, where required for export shipments, will be charged extra at current cost. This includes wooden or tin boxes and fibre drums. We do not charge Blue List customers, foreign or domestic, for single bags.

Outside of the continental United States, bulbs, roots and sets are shipped at customer's risk.

Burpee Guarantee

We guarantee the vitality and purity of Burpee's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil, and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs. All our seeds and bulbs are sold under this Burpee Guarantee.

Free Signs to Help Sell More Plants

Three Burpee signs like the one shown above are available free on request to help you sell. Each is large (18 x 8 in.) in attention-getting red and yellow. Gardeners have faith in Burpee Seeds—let your customers know your plants are grown from Burpee Seeds and your sales will grow. Just let us know how many of each sign you need.

- No. 7 Burpee Hybrid Tomatoes—Big Boy® Plants.
- No. 8 Burpee Hybrid Tomatoes—Big Early Plants.
- No. 9 Plants for Your Garden Grown from Burpee Seeds.

"Planning Your Flower Garden"

Give-away folders, in full color, for mailing or giving to your customers that buy plants. Packed with useful gardening information, these concise leaflets will help your customers to successful gardens. 25 leaflets sent to you free with your seed order of \$10.00 or more. Additional leaflets may be ordered at \$2.00 per 100, postpaid.

Free Color Posters

Five new wall posters in natural color are available free on request. Posters are large (11 x 17 in.) and make a beautiful display to help promote your plant sales. Just let us know how many of each poster you need. Please order by poster number.

- No. 1 Burpee's Big Boy® and Big Early Hybrid Tomatoes.
- No. 2 Burpee's Giant Hybrid Zinnias.
- No. 3 Burpee's Giant F₁ Hybrid Climax Marigolds.
- No. 4 Gloriosa Double Daisy—1961 All-America Silver Medal Winner
- No. 5 Burpee's Sentinel® Snapdragons.

No. 6 A combination flower and vegetable wall streamer (9 x 34 in.) in natural color is also available free on request.

3073 BURPEEANA GIANT ZINNIAS

Burpeeana Giant Zinnias are the most beautiful of any yet developed combining huge size, lovely form and magnificent colors. The breathtaking flowers are informally ruffled and gracefully quilled giving the flowers refinement and charm. An important virtue is the medium tall habit of the plants which grow only 2 ft. tall, making them most desirable for beds and borders. The 6 in. flowers come in all zinnia colors including glistening white, soft yellow, glowing gold, lively orange, bright pink, rose and salmon tones, vibrant red, soft violet, rich purple, and combinations of these colors. Strong stems. $\frac{1}{8}$ oz. \$1.25; $\frac{1}{4}$ oz. \$2.25; oz. \$8.00

Two of the Most Outstanding Flowers of Recent Years . . . New for 1961 from Burpee.

3243 GLORIOSA DOUBLE DAISIES

Gloriosa Double Daisies, this year's All America Silver Medal Winner, are an entirely new kind of flower. The big round, golden yellow double flowers resemble chrysanthemums. Some of them are semi-double with dark centers like Black-Eyed Susans from which they were developed. The 3 ft. plants are loaded with blooms, making them spectacular in the garden. With very long, strong stems they are excellent as cut flowers. Seed can be started indoors or early outdoors for blooming during midsummer and fall. Gloriosa Double Daisies are easy to grow; stand extreme heat and cold.

$\frac{1}{32}$ oz. \$1.00; $\frac{1}{16}$ oz. \$1.50; $\frac{1}{8}$ oz. \$2.50; $\frac{1}{4}$ oz. \$4.50; oz. \$12.00

Part of the "Workshop" at Burpee's Floradale Seed Farms where new and improved flowers are developed. Here selected plants are caged to protect them from insect pollination so seed obtained will produce plants having the same virtues for which they were selected. This is but one step in the development of a new flower which may take decades to accomplish.

More New Flowers for 1961 from Burpee . . . to give you new colors, better plants.

ASTERS

3089 Blue Waves Extra-large flowers in a uniform, clear, mid-blue color, the long petals artistically curled so as to resemble ostrich plumes. Wonderful for midseason bloom in the garden and just as fine for cutting. 1½ to 2 ft. tall.

¼ oz. \$1.25; ¼ oz. \$2.25; oz. \$6.75

3078 Charming A charming new color in the Giant Crego Asters; pure rose-pink. Petals twist and curl to form a most attractive flower head. Beautiful plants 2 ft. tall and slightly wider carry an abundance of midseason flowers for cutting.

¼ oz. \$1.00; ¼ oz. \$1.75; ¼ oz. \$3.00; oz. \$9.00

3087 Scarlet Beauty Glamorous new color in asters, sparkling cerise-scarlet. Plants like pyramids or Christmas trees, 2 ft. tall, a little wider at base, are covered from midseason to frost with double, 4 in. American Beauty type flowers.

¼ oz. \$1.25; ¼ oz. \$2.25; oz. \$6.75

ALYSSUM

3151 Rosie O'Day 1961 All-America Silver Medal Winner. Introduces a new deep rose color to Alyssum. It is in full bloom within two months of seeding, and the low-growing plants remain covered with bloom until frost. 4 in. tall.

¼ oz. \$2.25; ¼ oz. \$7.50; ¼ lb. \$22.50

LARKSPUR

3405 Barcelona New kind of larkspur and our only bicolor—blue and white. Because of open, well-placed flower formation it has an airy gracefulness not found in other types. Single and double blooms make up 20 in. spikes. 4½ ft. tall.

¼ oz. \$1.00; oz. \$3.50; ¼ lb. \$10.00

PETUNIAS

3161 Coral Satin 1961 All-America Winner. Lovely coral-rose first generation (F₁) hybrid multiflora. The plants retain their low mound form even to the end of the season, and are covered with 2½ in. flowers. 1000 seeds \$2.00;

¼ oz. \$4.00; ¼ oz. \$7.50; ½ oz. \$14.00

3137 Rosie Early, dwarf, bedding petunia providing a mound of deep, rich rose flowers spreading about 2 ft. At the height of bloom it produces a magnificent display of rose flowers interlaced in a solid mass of color. Early. 14 in. tall.

¼ oz. \$1.25; ¼ oz. \$2.25; ¼ oz. \$4.00; oz. \$12.00

3139 Springtime Fringed, bright salmon flowers up to 4 in. across in such profusion foliage is virtually covered during summer months. A meritorious F₁ Hybrid Grandiflora, uniform in color and habit and a vigorous grower. Plants grow 1 ft. tall. 1000 seeds \$2.00;

¼ oz. \$7.50; ½ oz. \$14.00

ZINNIA

3177 Gold Tip Bicolored newcomer to Mexicana Zinnias, with rich, mahogany-red petals gaily edged and tipped with bright golden yellow. Fully double flowers, 2½ in. across, are borne freely all summer on bushy plants only 1 ft. tall.

¼ oz. \$1.00; oz. \$3.75; ¼ lb. \$14.00

MARIGOLDS

3116 Alaska The nearest to white of all big marigolds—a very light primrose color. Well-formed, 4 in. carnation-like flowers nearly cover 2 ft. plants. Wonderful cut flowers.

¼ oz. \$1.00; ¼ oz. \$1.75; ¼ oz. \$3.00; oz. \$9.00

3119 Hawaii The best marigold ever introduced with odorless foliage and slightly sweet scented flowers. Bright, rich orange carnation flowered blooms cover the 2 ft. plants. They have good long stems that make them a joy for cutting.

¼ oz. \$1.00; ¼ oz. \$1.75; ¼ oz. \$3.00; oz. \$9.00

3109 Mary Helen Named in honor of Mrs. Wm. H. Ayres, wife of the distinguished Congressman from Ohio. Brilliant yellow, well-formed, 4 in. flower heads of the carnation type. The gorgeous blooms cover 2 ft. plants. Strong stems.

¼ oz. \$1.00; ¼ oz. \$1.75; ¼ oz. \$3.00; oz. \$9.00

3244 Miracle (New Selections of Near-to-White Marigolds for 1961). Miracle Marigolds contain many big, fully double, carnation, peony, and chrysanthemum type flowers. Their color varies from pale primrose to almost white. 2 to 3 ft.

¼ oz. \$1.00; ¼ oz. \$1.75; ¼ oz. \$3.00; oz. \$9.00

3099 Whitey The nearest to white of all marigolds. Attractive flowers up to 3 in. across vary slightly in color from a light creamy yellow to almost pure white. The greatest value of Whitey is its nearness to white. 1½ to 2 ft. tall.

¼ oz. \$3.00; ¼ oz. \$5.50; ¼ oz. \$10.00; oz. \$35.00

3192 Gypsy Provides the widest range of colors ever seen in Dwarf French Marigolds—primrose, yellow, orange, mahogany-red and combinations of these colors. Double, 1½ in. flowers cover the 1 ft. plants. They bloom all summer.

¼ oz. \$7.50; ¼ oz. \$1.25; oz. \$4.50; ¼ lb. \$12.00

SNAPDRAGONS

3167 Sunlight Spikes of cool, clear, light yellow, a new color in Sentinel Snapdragons which are giant, tall erect snaps that stand up like sentinels. As many as 30 to 40 flowers on a spike open at once. Base-branching, 3 ft. plants.

¼ oz. \$8.50; ¼ oz. \$1.50; ¼ oz. \$2.50; oz. \$7.50

3169 White Spire Another new color among Sentinel Snapdragons. Glistening, snowy white blossoms. 3 ft. tall.

¼ oz. \$8.50; ¼ oz. \$1.50; ¼ oz. \$2.50; oz. \$7.50

SWEET PEAS

3171 Gigi Silver Medal Winner, Scottish National Sweet Pea Society. Well placed, light salmon-cerise, fragrant flowers.

¼ oz. \$9.00; oz. \$1.65; ¼ lb. \$5.00

3176 Sachet Prize Winner, Scottish National Sweet Pea Society. Lavender on cream; flowers have a decided fragrance.

¼ oz. \$9.00; oz. \$1.65; ¼ lb. \$5.00

Burpee's Vegetable Seeds

Special wholesale prices on vegetables for the exclusive use of commercial growers are listed below (Pages 6 to 47). Burpee Seeds are grown from specially selected and controlled stocks to meet demands of an exacting market grower trade. Through experimental and testing work carried on at our Floradale and Fordhook Farms we are able to supply you with seeds of known quality which we can back with the famous Burpee Guarantee. Burpee pays the transportation on vegetable seeds anywhere in the U. S.

½ lb. of any variety listed in 1 lb. quantities will be supplied at ½ the 1 lb. price except Beans, Corn, Peas, Rape, Sunflower, Grass and Clover Seeds. On these, 1 lb. of a variety is the smallest quantity furnished at Blue List prices. No vegetable seed unit supplied from this catalog for less than 25¢.

Burpee's Tender Pod Bush Beans

* CERTIFIED BLIGHT-FREE BEANS *

Varieties marked with an asterisk are available in sealed 50 lb. or 100 lb. bags bearing the official Seal and Blue Tag of the State of Idaho, certifying that crops from which these seeds were produced have been inspected and found to be free of seed-borne bacterial blight.

BUSH BEANS—green-pod

60-75 lbs. per acre

French: Haricots nains—à cosses vertes
German: Grünschote Buschbohnen Italian: Fagiuolo nano
Spanish: Habichuela enana verde Portuguese: Vagem Ana Verde

6801 Contender 48 to 54 days. A very early, heavy producer of high quality beans and widely grown for local market sale and distant shipping. The medium green, oval pods are 6 in. long and curved. Their smooth, attractive appearance and good eating quality is desirable for fresh market sale. Beans hold well for shipping. Contender is resistant to mosaic, "greasy pod" and powdery mildew. The vigorous plants are low growing, compact and tolerant of heat. The heavy crop of beans is easy to harvest. See prices below.

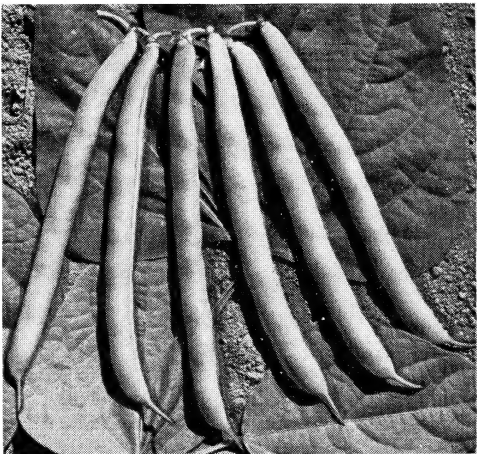

6162 Improved Tendergreen, Mosaic Resistant 56 days. Widely adapted for local market sale, and for canning, freezing or shipping to distant markets. Round, dark green pods, 6 to 7 in. long are borne high on the large, spreading plants that are mosaic resistant and prolific. Crop is adapted to mechanical picking. See prices below.

6273 Pearlgreen 53 days. All-America Winner. Vigorous, productive plants which produce a concentrated set of pods held well off the ground. The pods are round, smooth, light green, firm, 5½ in. long. This white seeded bean is outstanding for canning and freezing as well as for fresh market sales. It is resistant to common bean mosaic and has a wide range of adaptation. See prices below.

6852 Tendercrop 53 days. This variety has a wide range of adaptability. The vigorous plants are resistant to common bean mosaic, N.Y. 15 bean mosaic and pod mottle virus and produce an abundance of dark green, smooth, round pods, 5 to 5½ in. long. The pods have a distinctive pointed tip and are much in demand for fresh local market sale and freezing. See prices below.

5084 Topcrop 49 days. All-America Winner. An excellent general purpose variety that produces an exceptionally high yield of round, medium green pods 5½ to 6 in. long. An early maturing variety, Topcrop makes a concentrated set near the center of the plant. Plants are resistant to bean mosaic, "greasy pod" virus, pod mottle virus and N. Y. No. 15 virus. See prices below.

6165 Wade 56 days. The very smooth, round, dark green pods are 5½ to 6 in. long and are borne well above the ground. Plants produce a heavy set of fine flavored beans and are resistant to common bean mosaic, powdery mildew, pod mottle virus and N. Y. No. 15 virus. Wade, popular with market growers, is an excellent, high yielding variety for fresh market, canning and freezing. See prices below.

Topcrop Bush Bean, a high yielding all-purpose variety

POLE BEANS

30-35 lbs. per acre

French: Haricots à rames Spanish: Habichuela enredadora
German: Stangenbohnen Italian: Fagiuolo rampicante
Portuguese: Vagem Trepadeira

6182 Kentucky Wonder or Old Homestead 65 days. One of the best known pole snap beans for fresh market sale and freezing. The prolific plants yield high quality beans popular through the years for their excellent flavor. The oval-round, dark green pods are 7 to 9 in. long, fairly straight and stringless when young. See prices below.

5107 McCaslan 63 days. A vigorous and heavy producer that is particularly popular in the south. McCaslan is recommended for fresh market sales and for shipping. The flat, dark green pods are 7 to 8 in. long, curved and brittle when young. The seeds are ivory white. See prices below.

Not less than 1 lb. of any variety of Pole Beans will be supplied at wholesale.

	1 to 4 lbs. per lb.	5 to 49 lbs. per lb.	50 to 99 lbs. per lb.	100 to 499 lbs. per lb.	500 lbs. or more per lb.

BUSH BEANS—wax or yellow-pod

60-75 lbs. per acre

French: Haricots nains beurres Spanish: Habichuela enana amarilla
German: Wachs Buschbohnen Italian: Fagiuolo nano
Portuguese: Vagem Anã Amarela

6171 Burpee's Brittle Wax 52 days. An unexcelled variety for fresh market sale, canning and freezing. High quality, waxy, yellow pods are brittle and fiberless. Smooth, round and slightly curved they measure 6 to 6½ in. long. The upright, vigorous plants are heavy yielders. Widely known for its excellent flavor. See prices below.

6803 Cherokee Wax 50 days. An ideal variety for local market sale and for shipping. The smooth, clean, golden yellow beans retain their fresh appearance. Pods are oval shaped, 6 to 6½ in. long and straight. The large, erect plants are particularly noted for their high yield. Dependable and prolific Cherokee Wax is the wax bean most widely grown for the fresh market. See prices below.

6276 Kinghorn Wax 57 days. Plants are large, bushy, erect. The round to semi-round pods are 5¾ to 6 in. long, slightly curved, stringless and light golden yellow. White seed and high productivity place this variety in demand for canning, freezing and fresh market. See prices below.

6172 Surecrop Stringless Wax 52 days. Large plants bear a heavy crop of straight, thick-flat pods, 6 to 6½ in. long and entirely stringless at all stages. The uniformly yellow pods are free of green splashing which spoils appearance of some market varieties. This is a good one for local and distant fresh markets. See prices below.

5116 Blue Lake White Seeded Stringless 60 days. Vigorous and prolific vines, 5 to 6 ft. tall, are resistant to bean mosaic and some strains of rust. The round, dark green pods measure 5½ to 6 in. long and are stringless at all stages of growth. A good yielder and very early maturing, Blue Lake White Seeded Stringless is excellent for local market sale and freezing. It is an exceptionally good variety for canning. Outstanding for its distinctive "beany" flavor and always in popular demand. See prices below.

5113 Kentucky Wonder White Seeded 191, Rust Resistant 63 days. Noted for its excellent quality and flavor. The medium dark green pods are 6 to 7 in. long and flat oval shaped with white seeds. Kentucky Wonder White Seeded 191 is a prolific variety and a good local seller, shipper and freezer. Vines are good climbers and resistant to some strains of rust. See prices below.

Portuguese: Feijao de Lima Anão

5093 Fordhook No. 242 75 days. All-America Winner. A heat resistant variety that was developed specifically to produce heavy yields under adverse conditions. The vigorous plants will produce a marketable crop from the first picking until frost. Pods are 3 to 4 in. long and contain 3 or 4 thick beans. Fordhook No. 242 is excellent for fresh market, canning and freezing. See prices below.

5105 Henderson Bush 65 days. Small, erect, bushy plants produce an early crop of flat, baby limas, 3 or 4 per pod. This variety has long been in wide use by canners and freezers because of its earliness, distinct size and color. Suited to mechanical harvesting. See prices below.

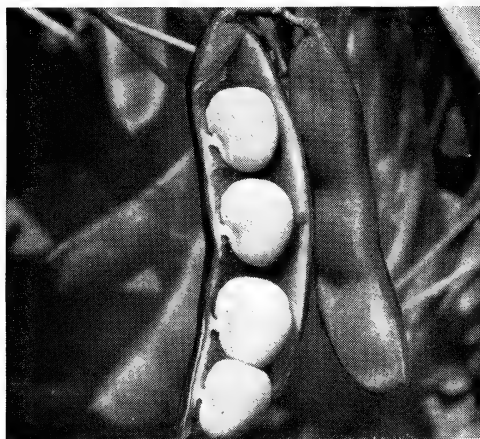

Not less than 1 lb. of any variety of Bush Lima Bean will be supplied at wholesale.

	1 to 4 lbs. per lb.	5 to 49 lbs. per lb.	50 to 99 lbs. per lb.	100 to 499 lbs. per lb.	500 lbs. or more per lb.

5124 Burpee's Best 92 days. A pole variety that has all the good characteristics of Fordhook Bush. A good climber and a heavy yielder, Burpee's Best is a fine variety for fresh use and for freezing. The pods are straight, 4 to 4½ in. long and are well filled with 4 or 5 big, plump, "potato" type beans that are exceptionally tender. See prices below.

6804 Fordhook Concentrated 72-75 days. A distinctive type of Fordhook that was developed primarily for processing. The plants have a compact habit of growth and are very productive. Fordhook Concentrated bears a heavy set of pods that are concentrated in maturity and in position on the plant. It is well adapted to mechanical harvesting and vining. Pods are 3½ to 4 in. long. There are 3 or 4 thick, flat, flavorful beans per pod. See prices below.

6183 Burpee's Fordhook 72 days. The best known all-purpose bush lima. Fordhook Lima, popular with most consumers, is suitable for any market. A very productive variety—Bean pods measure 4 to 4½ in. long and contain 3 or 4 large, plump, "potato" type, light green beans. Beans have a dry mealy quality and a delicious nutty flavor not unlike chestnuts. Fordhook Lima is widely grown for local market, shipping, canning and freezing. See prices below.

Fordhook No. 242. A heat resistant Bush Lima Bean for heavy yields under adverse conditions

Burpee's Fordhook Bush Lima Bean. The best known all-purpose lima. Suitable for any market

Noting beet trials on Burpee's Fordhook Seed Farms

$\frac{1}{2}$ lb. of any variety of Beets may be ordered at $\frac{1}{2}$ the 1 lb. rate. Not less than $\frac{1}{4}$ lb. of any variety of Beets will be supplied at wholesale.

BEETS, table

6-8 lbs. per acre

French: Betteraves potagères

Spanish: Remolacha

German: Rote Rueben

Italian: Barbabietola

Portuguese: Beterraba

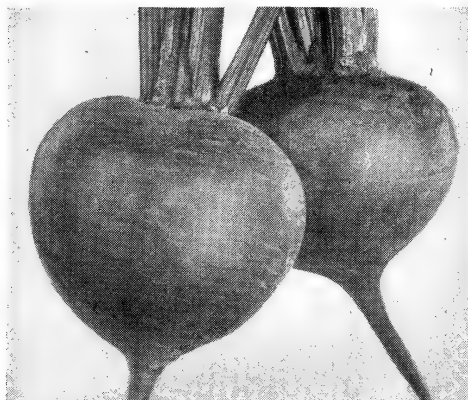

6192 Detroit Dark Red, Medium Top 59 days. The most important all purpose, high quality beet for fresh markets, shipping and canning and the bunched tops are good for fresh "greens" market. Beets are round, smooth skinned. Deep red roots measure $2\frac{1}{2}$ to 3 in. in diameter. Flavor is sweet and texture good. This variety is adapted to mechanical harvesting. See prices below.

6203 Detroit Dark Red, Short Top 60 days. Tops are about 3 inches shorter than the medium top variety. A good shipping variety and the short tops will save on handling and freight. Roots are 2 to $2\frac{1}{2}$ in. in diameter. Fine flavored and good textured, the beets are smooth skinned and the flesh is dark red all the way through. See prices below.

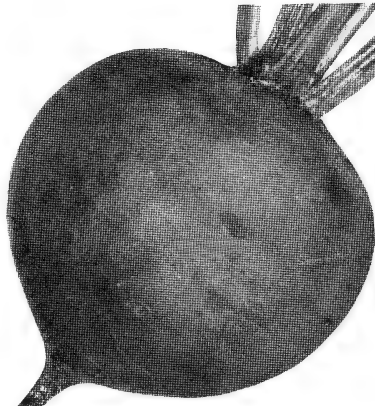

6193 Burpee's Red Ball 60 days. Uniform, globe shaped beets measure 3 in. in diameter. Smooth skinned and the flesh is an intense red, even after cooking. The sweet flavored beets have a good texture. Burpee's Red Ball is excellent for market, canning and freezing. See prices below.

6186 Burpee Redhart® 56 days. Burpee's improved strain of Crosby's Egyptian. Selected for its uniformity of growth and maturity. This smooth skinned, flattened globe beet is perfect for bunching. Burpee Redhart Beets have dark red flesh, a sweet flavor and excellent texture. They are preferred for their delicious taste. See prices below.

BROCCOLI

¼ lb. per acre

French: Choux Brocolis
German: Sprossen Broccoli
Portuguese: Brócolos

Spanish: Brocoli
Italian: Cavolo Broccolo

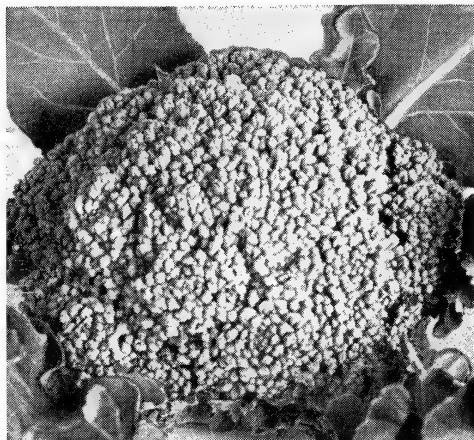

6005 De Cicco 65 days. A leading, early maturing variety for fresh market sale and for freezing. The medium tall, compact growing plants are very productive. De Cicco produces large, rich green center heads that are followed by a high yield of good side buds. A reliable variety, it is suitable for spring and fall crops. See prices below.

6255 Greenbud 60 days. Burpee's special strain of De Cicco. Selected for its deeper green color and its uniformly early, heavy production. The central head is large, dark green and tightly budded. Harvest of the central head is followed by the production of many good sized side buds. Greenbud is an unexcelled variety for fresh local market sale and for freezing. See prices below.

6873 Waltham 29 80 days. Grows best in late summer and fall and is not suited to spring planting. The short vigorous plants produce dark green center heads that are followed by strong, good sized, side buds. Waltham 29 is a uniformly high yielding variety that is particularly adapted to the east coast and the Pacific northwest. Good for freezing and fresh market sale. See prices below.

½ lb. of any variety of Broccoli may be ordered at ½ the 1 lb. price. Not less than 1 oz. of Broccoli, except Greenbud and Waltham, will be supplied at wholesale.

Early Jersey Wakefield—uniform conical heads

5005 Early Jersey Wakefield, Yellows Resistant 63 days. A solid, crisp and flavorful cabbage that is resistant to cabbage Yellows. The firm heads weigh about 2 to 3 lbs. and have a distinctive conical shape. Heads are 7 in. deep, pointed at the top with a broad base that measures 5 in. across. A good variety for local fresh market sale and for shipping to distant markets. See prices below.

6002 Copenhagen Market—Burpee's Special Strain 72 days. An early maturing, highly productive variety that is widely used for fresh market sale and for processing. Vigorous plants produce well rounded, solid heads. The individual heads of Burpee's Special Strain are 6½ in. in diameter and 6 in. deep and weigh 4 to 4½ lbs. These high quality heads are crisp and tender with exceptionally good flavor. See prices below.

6272 Earliana 60 days. The earliest maturing cabbage. Uniform for head size and maturity. Produces a good yield of small, deep, round heads that measure 4½ to 5 in. across and weigh about 2 lbs. The quality heads are compact, well folded and an attractive medium green color which is carried rather well into the head. Earliana is especially good for local fresh market sale. See prices below.

5003 Golden Acre Yellows Resistant 64 days. Early maturing, the firm, round heads measure 6 in. across and weigh 3½ to 4 lbs. The vigorous plants will resist Yellows even when planted in infected areas. Plants are short stemmed with small outer leaves. Compact habit of growth permits close planting. Golden Acre has a good head color and good flavor and stands well without bursting. Recommended for local or distant markets. See prices below.

½ lb. of any variety of Cabbage may be ordered at ½ the 1 lb. price. Not less than ½ oz. of any variety of Cabbage will be supplied at wholesale.

Earliana, the earliest cabbage we have ever grown

Burpee's Special Strain of Copenhagen Market Cabbage

CABBAGE—early, second early

½ lb. per acre

5006 Burpee's Allhead Early 80 days. The earliest maturing of the large cabbages. Burpee's Allhead Early produces exceptionally solid heads that have a flattened, globe shape and measure 9 in. across and 6 to 6½ in. deep. The quality heads weigh 6 to 8 lbs. Allhead Early is a good variety for processing and shipping. See prices below.

5008 Early Flat Dutch, Stein's 83 days. The large, solid heads weigh 5½ to 6½ lbs. They have a flattened shape and the individual heads are 5½ to 6 in. deep and have an 8 to 9 in. diameter. A hardy market and shipping variety; good for storage and processing. Stein's Early Flat Dutch is a deservedly popular second-early cabbage. See prices below.

6806 Enkhuizen Glory 80 days. A heavy yielding, mid-season variety that is widely grown for local market sale, for shipping and for processing. The large, vigorous plants produce solid, high quality heads that weigh 6 to 7 lbs. The round shaped heads have an 8½ to 9 in. diameter. Enkhuizen Glory is a dependable, good producer. See prices below.

Burpee's Allhead Early—earliest large cabbage

CABBAGE—late or winter

½ lb. per acre

6012 Burpee's Surehead 93 days. A uniformly large, late maturing variety, it is noted for its excellent keeping qualities. Recommended for shipping, storing or processing. Flat-shaped heads are 10 to 12 in. across, 6 to 7 in. deep and weigh 7 to 10 lbs. See prices below.

5001 Burpee's Danish Roundhead 105 days. An excellent all-purpose cabbage for fall or winter use. Vigorous plants produce high quality heads with good color, shape and flavor. The hard, round heads are 7 to 8 in. across and weigh 5 to 7 lbs. Because of its good keeping qualities Danish Roundhead is a popular variety for shipping, storing and processing. See prices below.

5002 Premium Flat Dutch 100 days. The extra large, flat shaped heads are 10 to 13 in. across and 5½ to 7 in. deep. These solid, good quality heads weigh 10 lbs. and over. An excellent fall and winter variety, Premium Flat Dutch is good for fresh market sale and is recommended for shipping and processing. See prices below.

Hale's Best Jumbo Cantaloupe for size, flavor and quality

CANTALOUPE (Muskmelons)

2½-3 lbs. per acre

French: Melons Cantaloups

Spanish: Melón

German: Melonen

Italian: Melone, Popone

Portuguese: Melão

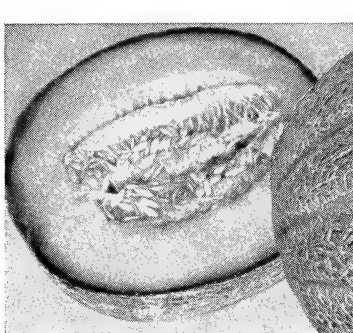

5079 Delicious 51 86 days. A long time favorite early melon, Delicious 51 is ideal for fresh local sale. The sweet, rich flavored flesh is juicy and ripens to a bright orange. Prominently ribbed and coarsely netted, the large melons weigh about 5 lbs. They are nearly round and measure 6½ to 7 in. long and 6½ in. across. The vigorous vines of Delicious 51 are resistant to Fusarium wilt and produce a good yield of quality, marketable fruit. See prices below.

6869 Edisto 85 days. The large, round to round-oval fruits have a hard rind and firm flesh, making them well suited for long distance shipping. The flesh which is very thick ripens to a deep salmon color. The seed cavity is small. Flavor and texture are superior. The vines are vigorous and resistant to alternaria leaf blight and powdery mildew; also, has some tolerance to downy mildew. The fruits are well netted and slightly ribbed. See prices below.

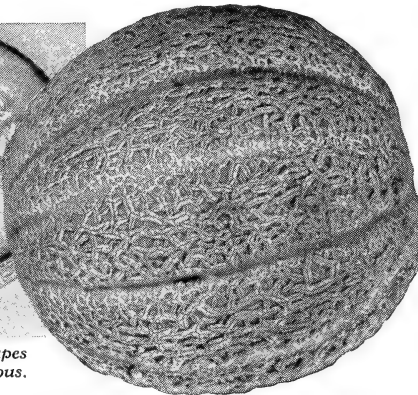

6827 Hale's Best Jumbo 85 days. The high quality fruits are the largest of the Hale types. Moderately ribbed and heavily netted they are oval-shaped, weigh 3½ to 5 lbs. and are 6½ in. long and 5½ in. across. The salmon-orange flesh is thick and sweet flavored. Popular with commercial growers because of its size, flavor and quality, Hale's Best Jumbo is a recommended variety for local market sale and for early shipping to distant markets. See prices below.

½ lb. of any variety of Cantaloupe or Muskmelon may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Cantaloupe or Muskmelon, except Burpee Hybrid, will be supplied at wholesale.

6066 Hale's Best Improved 36 85 days. The thick, firm, fine-grained, salmon-orange flesh is sweet and spicy and the round-oval shaped fruits weigh 3 to 4 lbs. each and grow 6 in. long and 5½ in. across. The seed cavity of this high quality melon is small and the heavy netting of its exterior is distributed uniformly. This variety is valuable for local market and distant shipping.	.45	1.25	3.70	3.55	3.45

*Burpee Hybrid Cantaloupes
Thick, firm, juicy, delicious.*

6137 Burpee Hybrid (Orange Flesh) 82 days. The heavily netted fruits are distinctly ribbed, round to slightly oval, average 7 in. long, 6 in. across and weigh 4 to 4½ lbs. each; often grow much bigger and heavier. Although this variety produces many larger-than-average size fruits the quality remains superior. The flesh is deep orange, thick, firm, juicy and of the most delicious flavor. Vines are vigorous growing and produce good early yields of large fruited melons. A premium market variety that produces well in northern states, Burpee Hybrid is a true first generation hybrid and outstanding for its quality, flavor and high yield.

¼ oz. \$2.25; oz. \$8.50;

CANTALOUPE (Muskmelons)

6242 Pennsweet 83 days. The medium to small sized fruits have thick, salmon-orange flesh and a small seed cavity. Vigorous plants come to maturity early in the season producing slightly oval, ridged fruits. Netting is medium in density. Pennsweet is a highly recommended variety for early local market production. See prices on opposite page.

5037 Pride of Wisconsin 92 days. The distinctly ribbed, heavily netted skin is a gray-green color that changes to golden when the melon is ripe. The nearly round fruits are 6 1/2 to 7 in. across and weigh 4 to 5 lbs. The large melons have a very small seed cavity and the thick, sweet flavored, orange flesh is firm and edible to the rind. A top quality melon, Pride of Wisconsin is an excellent local market variety popular with growers. See prices on opposite page.

MELONS

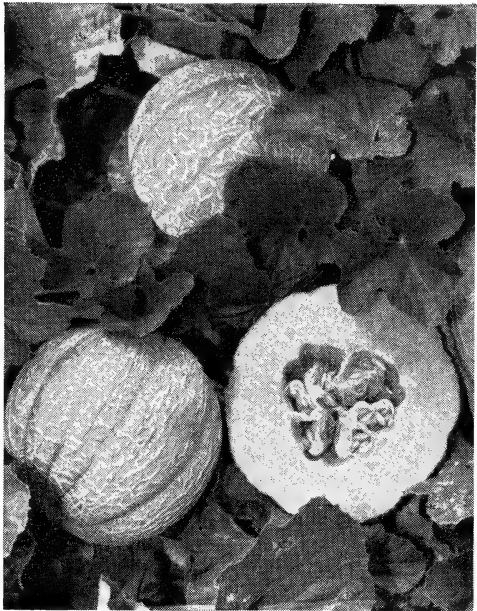

2 1/2 to 3 lbs. per acre

5247 Golden Beauty Casaba (White Flesh) 110-120 days. This distinctive variety is particularly adapted to long season areas such as California where it is grown extensively for local market and distant shipping. The high quality, globe shaped fruits are 6 to 8 in. in diameter and keep in good condition in storage. Wrinkled skin is a golden color and tough. The thick, white flesh has a delicious sweet and spicy flavor. See prices below.

5246 Honey Dew (Green Flesh) 110 days. A unique type of melon usually grown in long season localities for nearby market and long distance shipping. The large, vigorous plants produce smooth, somewhat elongated, broad-oval shaped fruits that are 7 to 8 in. long and 6 in. across. The skin of each large melon is creamy white and free of netting and the light green flesh is thick, juicy and sweet with a small seed cavity. See prices below.

1/2 lb. of any variety of Melon may be ordered at 1/2 the 1 lb. price. Not less than 1 oz. of any variety of Melon will be supplied at wholesale.

Nantes Half Long. High quality finger carrot for fresh market sale and processing

CARROTS

2-4 lbs. per acre

French: Carottes Spanish: Zanahoria
German: Karotten Italian: Carota
Portuguese: Cenouras

6013 Burpee's Goldinhardt® 70 days. Our special strain of Red Cored Chantenay which has been selected for uniformity, trueness to type, deep exterior and interior color, and small, indistinct core. Excellent for local market sale, shipping and for freezing. Burpee's Goldinhardt is popular with all growers because of heavy yield, all-round excellence and the bright orange flesh all the way through to the center. Roots are 5 to $5\frac{1}{2}$ in. long and $2\frac{3}{4}$ in. thick at the shoulder, very gradually tapering to an abrupt stump end. The skin is an attractive orange-scarlet and the flesh is fine grained, tender and of delicate, sweet flavor. A good quality carrot, it is popular for all purposes. See prices below.

6016 Danvers Half Long 75 days. A well-known, heavy cropping carrot of great uniformity, it has deep orange-red skinned roots, 7 to $7\frac{1}{2}$ in. long, 2 to $2\frac{1}{2}$ in. in diameter and tapered gradually toward the blunt end. Flesh is bright orange, fine grained, tender and sweet. Danvers Half Long, an all-round favorite, is widely grown for bunching and winter storage. See prices below.

$\frac{1}{2}$ lb. of any variety of Carrots may be ordered at $\frac{1}{2}$ the 1 lb. price. Nor less than 1 oz. of any variety of Carrots will be supplied at wholesale.

6243 Gold Pak 76 days. All-America Winner. The slender, streamlined carrots are popular for local market sale and for shipping to distant markets and because of their attractive appearance and good quality they are highly recommended for the prepack trade. The rich orange, smooth skinned roots are 8 to 9 in. long, $1\frac{1}{2}$ in. across the shoulder and nicely tapered. The sweet flavored, orange flesh is tender and coreless. Recommended only for deep soils. See prices above.

6021 Imperator 75 days. All-America Winner. The rich, orange-red skinned roots grow 8 to 9 in. long, $1\frac{1}{2}$ in. across shoulder and taper to a rather blunt end. An attractive, long slender carrot, Imperator is produced primarily for the bunching and prepack trade. It has the streamlined shape, size and color to show to advantage. Its deep orange, fine grained flesh is sweet and tender. It is a good quality carrot especially suited to light soils. See prices above.

6003 Nantes Half Long 70 days. Of unsurpassed texture, color and flavor, Nantes Half Long is a high quality finger carrot that is widely grown for fresh market sale and for the processing market. The half-long, slim, well-shaped, orange roots grow 6 to 7 in. long, are perfectly cylindrical, 1 to $1\frac{1}{2}$ in. thick the whole length. The roots are of delicious flavor, fine grained, tender and practically coreless and the flesh is orange-scarlet. Excellent for canning and freezing it is a popular and reliable grower's variety. See prices above.

CAULIFLOWER

¼ lb. per acre

French: Choux-fleurs Spanish: Coliflor
German: Blumenkohl Italian: Cavolo fiore
Portuguese: Couve Flor

6026 Burpeeana 58 days. An extra early strain of Super Snowball as offered by Burpee. The compact, well-rounded heads are pure white and protected by long jacket leaves that cover the heads. Heads have a 6 in. diameter and weigh 3 to 5 lbs. when trimmed for market. Burpeeana is a dependable heavy yielder and uniform in season, size and shape. A popular growers' strain, it is an excellent variety for market and freezing. See prices below.

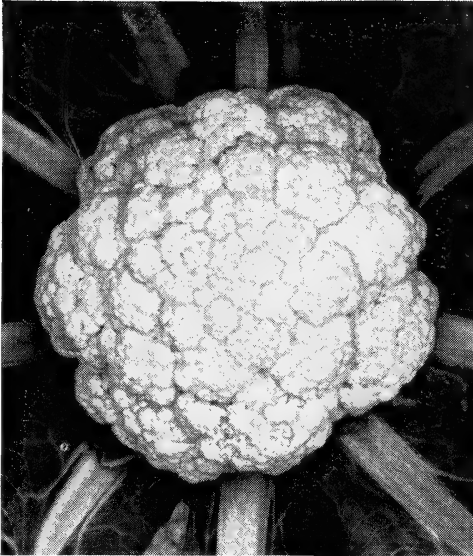

6027 Early Snowball-A 60 days. A quality market variety for local sale or shipping and fine for freezing. Uniformly maturing plants produce fine quality, pure white heads. Firm heads are deep globular shaped and well protected by good leaf coverage. See prices below.

5208 Holland Erfurt, Improved 64 days. Grows and matures its heads uniformly. The large white heads are solid, short-leaved, fine textured. This is a fine productive variety used for freezing production. See prices below.

6871 Snowdrift 63 days. Evenness of maturity of heads is an outstanding characteristic of this variety. Heads are free of the leaves which sometimes appear in the center of some varieties. Seldom produces ricy or fuzzy heads. The deep, large white heads are well suited for either local fresh market sale or freezing. See prices below.

Fordhook Celery (Burpee's Special Stock)

Burpee's Fordhook Giant Swiss Chard

CELERY

¼ lb. per acre

French: Céleris Italian: Sedano a coste
German: Bleich Sellerie Portuguese: Aipo
Spanish: Apio

6022 Burpee's Fordhook 130 days. The best and finest flavored fall and winter green celery. Plants are stocky, compact, 15 to 18 in. tall. The stalks are very thick and smooth and are always tender, crisp, stringless and juicy, with well-developed heart. Easy to harvest, Fordhook is an outstanding market and storage variety. See prices below.

½ lb. of any variety of Celery may be ordered at
½ the 1 lb. price. Nor less than ½ oz. of any
variety of Celery will be supplied at wholesale.

6028 Giant Pascal 135 days. The broad, distinctly ribbed stalks are 24 in. tall; thick and solid. They are tender, crisp and stringless and have a nutty flavor when earth bleached. The extra long stalks of this variety are in high demand. Giant Pascal is an excellent market, shipping and storage variety. The vigorous plants are large and upright growing. See prices below.

5204 Burpee's Golden Self Blanching 115 days. This widely grown, yellow celery is good for local market sale and shipping. The early maturing plants are compact growing, 18 to 22 inches tall and form thick, ribbed stalks which blanch easily to a clear waxen yellow. The stalks and hearts are tender, stringless, crisp and juicy. See prices below.

Burpee's Golden Self-Blanching Celery, an early maturing, compact growing celery for local market sale and shipping

HYBRID SWEET CORN

10-12 lbs. per acre

French: Mais sucré
German: Speisemais

Spanish: Maiz dulce de mesa
Italian: Grano turco dolce
Portuguese: Milho doce

5143 Burpee's Surecross 88 days. A heavy yielding, main crop hybrid, Burpee's Surecross is recommended for fresh market, canning and freezing. The thick ears are 8½ in. long with 14 or 16 rows of delicious, creamy yellow kernels. Noted for flavor and tenderness. The high quality ears are easy to harvest. See prices below.

6241 Barbecue 75 days. The slender, attractive ears are 8 to 9 in. long with 10 to 14 rows of rich golden kernels. One of the earliest maturing hybrids; it is popular for fresh market sale and for freezing on the cob. Quality and flavor make it a good seller at roadside stands. See prices below.

6235 Golden Beauty 73 days. All-America Winner. Earliness combined with quality makes this high yielder an ideal choice for market growers everywhere. Because it does well in short season areas Golden Beauty is recommended for the northern states and Canada where some varieties are not successful. The uniform, medium sized ears are 6 to 7½ in. long and have 12 or 14 rows of golden yellow, delicious kernels. The dark green husks and good flag leaves make an attractive market appearance. See prices below.

6213 Golden Cross Bantam 85 days. Outstanding for its exceptional flavor and quality, Golden Cross Bantam is the most famous and popular hybrid sweet corn grown for market, shipping or processing. A high yielding, mid-season variety, the vigorous plants are somewhat wilt resistant and successfully adapted to many growing conditions. They have a uniform maturity and produce top quality ears 7½ to 8½ in. long with 10 to 14 rows of sweet, light golden yellow kernels. See prices below.

6263 Burpee's Honeycross 87 days. A productive, main crop, hybrid variety, Honeycross reliably produces high yields over a wide range of varied growing conditions. The vigorous plants are wilt resistant and tight husks protect the ears from smut and ear worm. Good quality ears are 8 to 9 in. long and filled right to the tip with 16 or more rows of bright yellow kernels. Excellent flavor and quality combine with attractive market appearance. See prices below.

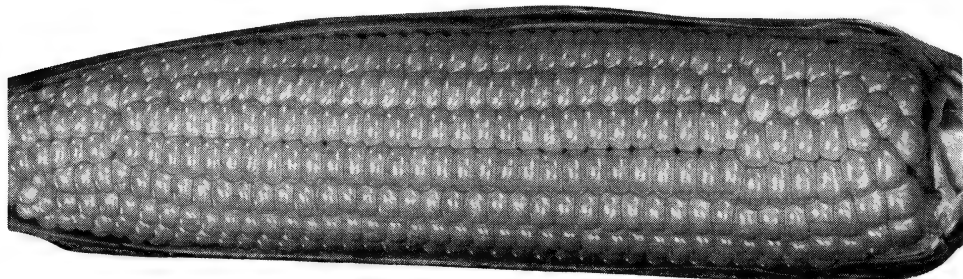

5145 Ioana 87 days. All-America Winner. Excellent for fresh market sale and for canning or freezing. Ioana is a popular main crop variety and especially widely grown in the south. Resistant to wilt and ear worms and tolerant of drought, the vigorous plants produce 7½ to 8 in. long ears with 12 to 16 rows of deep, fine flavored, light yellow kernels. Selected for vigor and quality. See prices below.

5142 Iochief 89 days. All-America Winner. A vigorous hybrid, the sturdy, well rooted plants are tolerant of drought and resistant to wilt. Large, attractive ears are 9 to 10 in. long with 14 to 18 narrow rows of deep, closely packed, golden yellow kernels of exceptional flavor and quality. A midseason variety, Iochief is a widely grown market and canning variety. See prices below.

5144 Marcross 75 days. This early maturing variety is well suited for the northern states and popular for its good quality. The 6½ to 8 in. long ears have 12 or 14 rows of large, creamy yellow kernels. The short sturdy plants are wilt resistant and productive. See prices below.

Not less than 1 lb. of any variety of Hybrid Sweet Corn will be supplied at wholesale.

Burpee's Surecross Hybrid Sweet Corn is a high yielding, main crop, yellow grained, market variety—a top notcher for flavor and tenderness

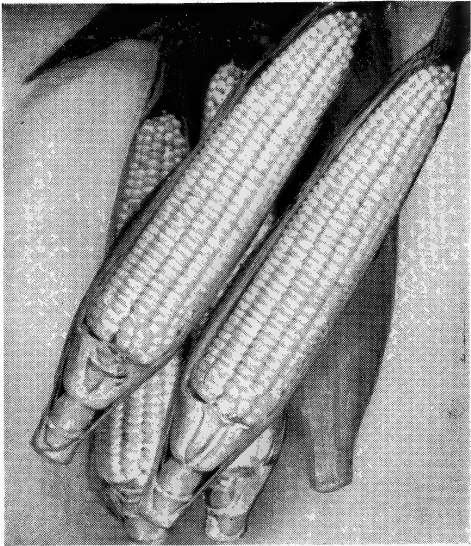

HYBRID SWEET CORN (continued)

5141 Burpee's Snowcross 83 days. An exceptionally tender, white hybrid sweet corn of delicious flavor, Snowcross meets the need for any early midseason variety of good quality. Ears are 8 in. long, tapered toward the tip with 12 to 14 rows of clear white, deep kernels. A reliable producer Snowcross is in demand for fresh market sale and processing. See prices on opposite page.

6262 Country Gentleman Hybrid 92 days. An excellent, shoepeg type of white corn for fresh market and canning. The tender, very sweet, white kernels are irregularly arranged on the thick, 7½ in. long ears. Plants are vigorous and productive. See prices on opposite page.

6212 Stowell's Evergreen Hybrid 90 days. All-America Winner. The attractive 7½ to 8½ in. long ears have 14 to 18 rows of deep, pure white kernels that are exceptionally tender and sweet. Plants are drought resistant and high yielding. Stowell's Evergreen Hybrid, popular with growers, is considered the leading white hybrid for market and processing. Its quality, vigor and productivity is outstanding. See prices on opposite page.

6265 White Cross Bantam 84 days. Early maturing white hybrid. The ears average over 8 inches in length and have 12 or 14 rows of delicious kernels. The fine growth qualities and excellent flavor make White Cross Bantam highly desirable for local fresh market or processing. Good coverage with husk provides ear tip protection. See prices on opposite page.

Burpee's Snowcross. Hybrid White Sweet Corn in demand for market sale and processing

SWEET CORN, Open Pollinated
10-12 lbs. per acre

6205 Burpee's Golden Bantam 80 days. Known to all it is deservedly America's favorite sweet corn and the most popular open pollinated variety. The ears are slender, 5½ to 6½ in. long, with 8 rows of even, broad, moderately deep, golden kernels of the most delicious flavor. A high quality, early corn, Burpee's Golden Bantam is widely grown for fresh market and freezing. See prices below.

5152 Stowell's Evergreen 92 days. An old standard market variety, Stowell's Evergreen retains its sweet flavor a long time after picking and is an excellent variety for market and shipping. High quality ears are 7½ to 8½ in. long and the clear white, sweet and tender kernels are arranged in 16 to 20 rows. See prices below.

	Not less than 1 lb. of any variety of Sweet Corn will be supplied at wholesale.

5187 Peppy Pop Corn Hybrid, Burpee's85	.76	.70	.65	.62
90 days. An extra high yielding hybrid with outstanding popping and taste qualities. The white kernels are deep pointed and hulless and when popped they are tender and fiberless. An early variety especially valuable in the north.					
5167 South American Mushroom55	.41	.35	.30	.27
5163 South American Mushroom Hybrid85	.74	.68	.63	.60
105 days. Ears are 6 to 8 in. long with 14 or 16 rows of somewhat rounded, orange-yellow kernels that expand 28 to 30 volumes when popped. An important commercial variety.					

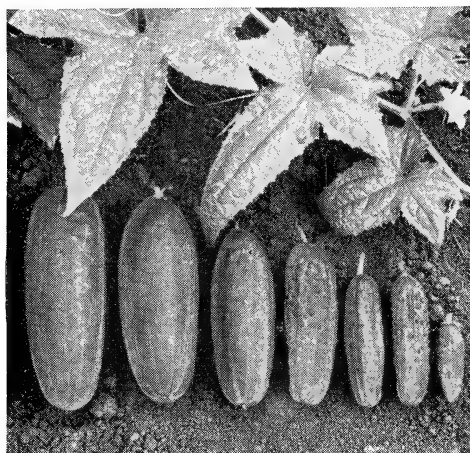

Burpeeana Hybrid Cucumber—earliness and quality

6274 Burpeeana Hybrid 58 days. A true F₁ Hybrid, it shares the popularity of Burpee Hybrid Cucumber. It is vigorous, productive, early maturing—a few days earlier than Burpee Hybrid—and continues production over a long period. The dark green fruits are 8 to 9 in. long, 2¼ in. wide, cylindrically shaped with rounded ends, straight and of very even size. A good quality white spine cucumber, Burpeeana Hybrid is a high yielding, early maturing, market grower's variety. See prices on opposite page.

5019 A & C 68 days. Popular with growers for shipping and local market sales, A & C is an important white spine, slicing cucumber. The deep green fruits are straight, slightly tapered at each end and measure 8½ to 9 in. in length and 2¼ in. in diameter. Vigorous vines produce a good yield of quality fruits. See prices on opposite page.

5292 Ashley 65 days. The leading market slicing cucumber with very dark green, slender, white spine fruits 8 in. long by 2¼ in. wide. Vines are very prolific and highly resistant to downy mildew. A widely adapted variety attractive to all consumers. See prices on opposite page.

Black Diamond Cucumber, "It stays green"

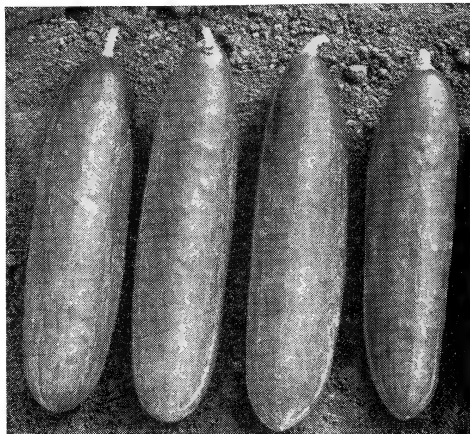

CUCUMBER

2 lbs. per acre

French: Concombres
German: Gurken
Portuguese: Pepino

Spanish: Pepino
Italian: Cetriolo

6023 Burpee Hybrid F₁ 60 days. Internationally famous, Burpee Hybrid is a high class market grower's cucumber for all purposes. High resistance to mosaic and downy mildew are the outstanding attributes of this true F₁ Hybrid, white spine, slicing type cucumber. In addition, the yielding ability of this hybrid is greatly increased over standard varieties. The vines are extremely vigorous and bear an abundance of well formed, straight, dark green fruits. The fruits will grow 8 in. long, 2¼ in. wide and square at both ends with a medium seed cavity and crispy, white flesh of excellent quality. Burpee Hybrid Cucumber is the leading variety of glasshouse growers in the hothouse sections of the country, where high yields under glass make it a profitable variety to grow. See prices on opposite page.

Marketer, an extra fancy white spine cucumber

6254 Burpee Pickler F₂ 53 days. The early maturing, high yielding vines are vigorous with a high degree of tolerance to cucumber mosaic. Burpee Pickler is a black spined pickling cucumber of early maturity and produces a very heavy yield of blocky, attractively warted fruits which are valuable for use in all stages from small sweets to large dills. The medium green fruits have blocky shoulders and blunt tips with a length to diameter ratio of approximately 3 to 1. Flesh is thick, firm and of excellent quality. Burpee Pickler F₂ is the outstanding variety grown for the pickling trade. See prices on opposite page.

5015 Black Diamond 55 days. "It stays green." Particularly noted for retaining its dark green color, Black Diamond is widely used for shipping. The fruits grow to 7½ in. long and 2½ in. across. They are straight, blunt ended and the flesh is pure white and of the finest quality and flavor. See prices on opposite page.

5029 Marketer 65 days. All-America Winner. An extra fancy, white spined cucumber, it is always in great demand for a shipping and local market slicer. The vines produce an abundance of 8 in. long, 2¼ in. across, slender, smooth cucumbers. The uniform, dark green skinned fruits taper slightly at each end. See prices on opposite page.

6261 Ohio MR 17 (Mosaic Resistant) 57 days. Fully grown, the dark green fruits of this black spined pickler are about 7 in. long and 2 in. in diameter. Their range in useable sizes permits processing all the way from small sweets to large dills. The vigorous, high yielding vines are resistant to mosaic. See prices on opposite page.

Burpee Hybrid Cucumber has such high resistance to mosaic and downy mildew it outyields other varieties

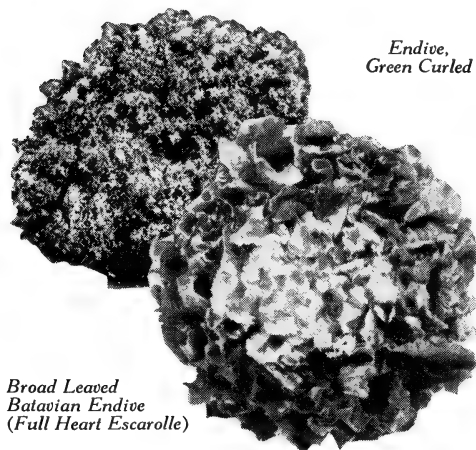

Burpee Hybrid Eggplant—high yielding

5223 Burpee Hybrid F₁ 70 days. The vigorous, heavy yielding plants have a semi-spreading habit of growth and most of the medium-sized fruit is carried high on the plant, not touching the ground. Oval shaped fruits are a dark purple color and have a particularly high gloss. This outstanding hybrid is more resistant to drought and disease than any of the commercial varieties, and the quality fruit is produced all season. See prices below.

½ lb. of any variety of Eggplant may be ordered at ½ the 1 lb. price. Not less than ½ oz. of any variety of Eggplant (except Burpee Hybrid F₁) will be supplied at wholesale.

½ oz. 95¢; Oz. \$1.75; ¼ lb. \$5.50

EGGPLANT

¼ lb. per acre

French: Aubergines Spanish: Berenjena
German: Eierfrucht Italian: Melanzana
Portuguese: Beringela

6031 Burpee's Black Beauty 73 days. Each large, high quality fruit weighs several pounds and is borne well off the ground by the medium tall plants. When fully developed they are broad and blunt at the blossom end and gently taper toward the stem end. A standard market variety, the deep, purplish black fruits retain their smooth, rich color for a long time. See prices below.

6822 Ft. Myers Market 78 days. The glossy, blackish purple fruits are long-oval shaped, 9 to 10 in. long and 5 to 6 in. in diameter and are held on the plant high above the ground. The tall growing, drought and disease resistant plants produce a high yield of uniformly excellent quality fruit for market sale. See prices below.

5229 Florida Highbush 78 days. An important commercial market variety. Florida Highbush produces a good yield of medium-sized fruit that is dark purple colored and long-oval shaped. The tall, strong plants hold the fruit high above the ground. See prices below.

ENDIVE

2-3 lbs. per acre

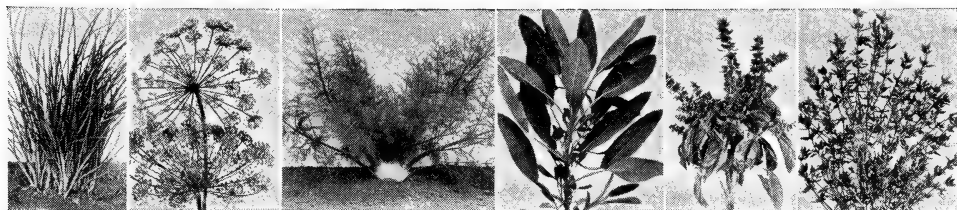

French: Chicorées Spanish: Escarola
German: Endivien Italian: Indivia riccia
Portuguese: Chicorea

5027 Broad-Leaved Batavian (Full Heart Escarolle) 90 days. A popular Escarolle with large, broad, slightly twisted, lettuce-like leaves. The crisp, tender leaves form big, round plants that are up to 16 in. across. The heart is deep, thick textured and well blanched. See prices below.

6036 Deep Heart Batavian 70 days. All-America Winner. The exceptionally deep heart is compact, well filled and readily blanches itself to a clear, creamy yellow color and buttery texture. Many whorls of large, thick, dark green leaves with slightly curled edges form the large, uniform plants. A successful spring or fall crop. Deep Heart Batavian is a popular grower's variety. See prices below.

½ lb. of any variety of Endive may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Endive will be supplied at wholesale.

Premier Great Lakes—early maturing head lettuce

Imperial No. 456, head lettuce for muck soils

LETTUCE—heading

2 lbs. per acre

French: Laitues Spanish: Lechuga
German: Kopfsalat Italian: Lattuga
Portuguese: Alface

b.s. = black seeded w.s. = white-seeded

5028 Big Boston, w.s. 83 days. The medium large, compact heads have light green outer leaves that are slightly tinged with reddish brown. These leaves are smooth with a buttery texture. The inside heart leaves are crisp, tender and blanch to light golden yellow. Big Boston is forced for markets in coldframes and hot beds and it is grown outdoors for a spring or fall crop. It heads particularly well during cool weather. See prices below.

6057 Imperial, No. 847, b.s. 84 days. A long lasting variety, it withstands hot weather conditions. This fine variety is widely grown in the south and east for local market sale and for shipping. Heads retain their fine quality and attractive appearance for a long time. They are round, medium sized and framed by thick, smooth, green leaves. The leaves are crisp and well folded and the vigorous plants are resistant to brown blight. See prices below.

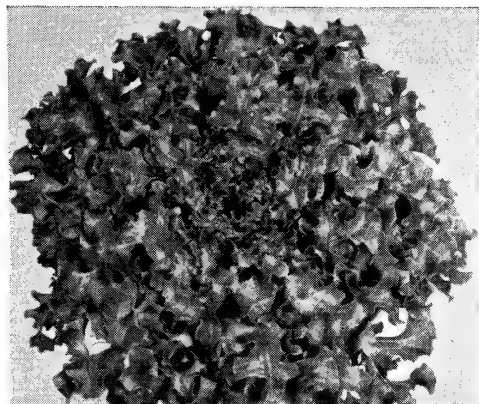

½ lb. of any variety of Lettuce may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Lettuce will be supplied at wholesale.

6825 Imperial, No. 456, w.s. (Cornell) 82 days. Unquestionably an outstanding variety for crop production on upland soils and mucks. Vigorous plants produce a good yield of fine quality heads even under difficult growing conditions. The plants are resistant to early bolting, brown blight and tip burn. Medium sized, hard, solid heads are enclosed by light green wrapper leaves that are slightly frilled at the edges. A good variety for local market sale, it is important in muck soil areas. See prices below.

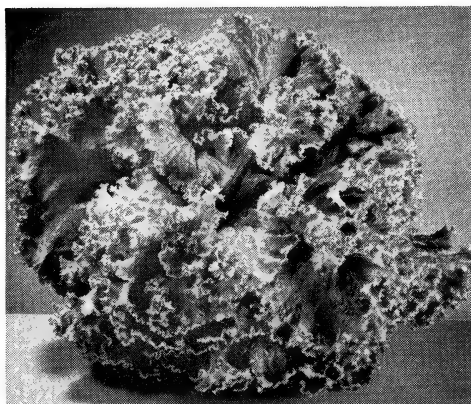

5235 New York 515, w.s. 80 days. The well shaped, medium sized heads are round and the outer leaves are bright green and resistant to tip burn. New York 515 is a vigorous growing variety and makes heads well in warm weather. It is recommended for the shipping trade. See prices below.

5022 Premier Great Lakes, w.s. 80 days. All-America Winner. The large heads are solid and practically round. Leaves are deep green and the outer wrapper leaves are somewhat flattened, smooth and fringed at the margins. The plants are resistant to tip burn and to heat. An early maturing variety, Premier Great Lakes has an attractive appearance, important for fresh market sale, and uniform size, desirable for a shipping variety. See prices below.

Burpee's Fordhook Fancy Mustard Greens

MUSTARD GREENS

4 lbs. per acre

French: Moutardes
German: Senf

Spanish: Mostaza
Italian: Senapa

Portuguese: Mostarda

5265 Burpee's Fordhook Fancy 40 days. The bright, large, dark green leaves have the appearance of ostrich plumes. They are deeply curled, fringed and curved backwards. Their flavor is mild and the quality leaves will stand a long time before bolting. The quality greens of Burpee's Fordhook Fancy are desirable for the salad and cooking green trade at local markets. See prices below.

5261 Florida Broad Leaf 43 days. The large, bright medium green leaves are broad, oval shaped and smooth. Leaves have a distinct, flattened, greenish white midrib. Florida Broad Leaf is always a popular variety for fresh green marketing. See prices below.

5038 Southern Giant Curled 40 days. A popular curled mustard and it is widely used for spring and fall planting. The bright green leaves are large, moderately broad and fringed at the edges. They have a pleasing, mild flavor and are slow to bolt. See prices below.

½ lb. of any variety of Mustard Greens may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Mustard Greens will be supplied at wholesale.

6073 Extra Curled Dwarf or Emerald 85 days. The compact plant has dark green leaves which are moss-like in appearance because they are so finely cut and tightly curled. The attractive leaves of Extra Curled Dwarf bunch well for shipping and local market sale. It is a good variety for commercial growers and popular for its quality and marketable appearance. See prices below.

6071 Paramount 85 days. All-America Winner. The multi-curled, dark green leaves are borne on sturdy stems well suited for bunching. The excellent leaf color and distinct uniformity of plant height are the outstanding characteristics of this variety. See prices below.

5285 Plain or Single 72 days. The plain, dark green deeply cut leaves are flat; not curled. Rich flavor and wide, flat leaf surface makes this variety outstanding to grow for the seasoning market and soup stock. See prices below.

Italian: Zucca

5301 Golden Cushaw 115 days. Frequently grown commercially for local market where they are used for baking, canning and pie making. The golden yellow-skinned fruits have curved necks and small seed cavities. They generally measure 18 to 20 in. long. The golden yellow flesh is thick and tender. See prices below.

5137 Jack-O'-Lantern 110 days. This special selection out of Connecticut Field produces excellent face pumpkins that are always in demand for Halloween carving. It is extensively grown for local fresh markets. The skin is bright orange, smooth, firm and thick. Fruits are medium size, and have round to elongated shapes. See prices below.

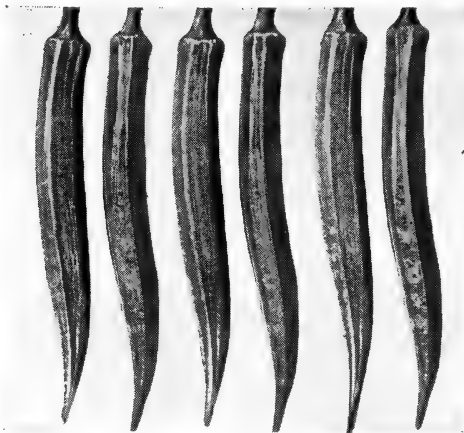

6082 Small Sugar 100 days. Known also as the New England Pie pumpkin, it is often grown commercially for canning and pie making; many growers sell it in local markets as a small decorative and face pumpkin. The skin is bright orange. Flesh has a rich orange-yellow color and is sweet and fine-grained. The round, slightly ribbed fruits are about 7 in. in diameter. Stores well. See prices below.

1/2 lb. of any variety of Pumpkin may be ordered at 1/2 the 1 lb. price. Not less than 1 oz. of any variety of Pumpkin will be supplied at wholesale.

Autumn Spice, a true F₁ Hybrid onion. Important because it keeps very well in storage and is suited for the prepack trade.

ONION SEED

4-6 lbs. per acre

French: Oignons
German: Zwiebeln
Portuguese: Cebola

Spanish: Cebolla
Italian: Cipolla

5241 Autumn Spice F₁ Hybrid 102 days. The very uniform, medium sized onions are round to slightly oblate shaped with heavy, brown outer skin. Flesh is creamy white, crisp, pungent and firm. A long-day variety, Autumn Spice is especially adapted for growing in northern latitudes. It is a true F₁ hybrid and an important grower's variety because it keeps well in storage and is suited for the prepack trade. See prices on opposite page.

OKRA

8 lbs. per acre

French: Gombo
German: Ocher
Portuguese: Quiabo

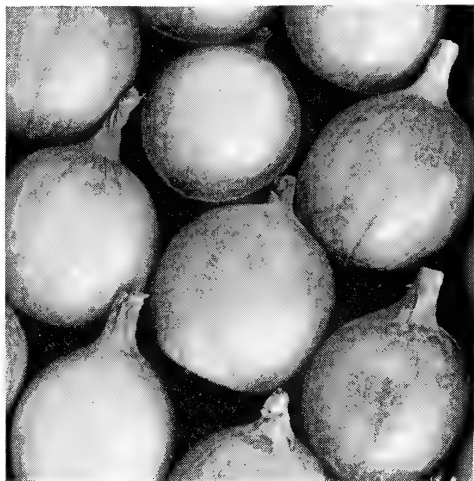

Spanish: Quimbombó
Italian: Ocra, Ibisco

5034 Clemson Spineless 56 days. All-America Winner. Uniform, heavy yielding plants grow 4 ft. tall and bear a large crop of high quality pods. Dark green, slightly grooved, straight, pointed pods are 7 to 9 in. long and spineless. A grower's variety, Clemson Spineless is outstanding for fresh market sale and for processing. See prices below.

6077 Perfected Perkins' Long Pod 55 days. Bright dark green pods are slightly ribbed and tapered. The very productive plants grow 3 to 4 ft. tall. Perfected Perkins' Long Pod is widely grown for the canning and freezing trade and for market sale. See prices below.

½ lb. of any variety of Okra may be ordered at ½ the 1 lb. price. Not less than ¼ lb. of any variety of Okra will be supplied at wholesale.

Southport Yellow Globe. An excellent shipping variety of onion and uniform in size, shape, color and quality.

5273 Early Yellow Globe 100 days. This standard early variety for northern areas has attractive, medium-large, globe-shaped bulbs with fairly thick, tight, yellow-brown skins. It may be stored for short periods but has softer, milder flesh than Autumn Spice and will not hold as well in storage. See prices on opposite page.

5275 Southport Yellow Globe 115 days. The fine grained, creamy white flesh is solid, juicy and fairly strong flavored. Medium sized, the onions are globe shaped with a rather full shoulder and a thin slender neck. Skin is bright, golden yellow. An excellent shipping variety, Southport Yellow Globe also stores well when grown in long-day latitudes. Uniform in size, shape, color and quality, it is an important grower's variety. See prices on opposite page.

Ebenezer, much used for producing Sets

Evergreen Long White Bunching. An important onion variety for the bunching or scallion market.

ONION SEED (continued)

5036 Ebenezer 105 days. The flattened globe-shaped bulbs are 2½ to 3 in. or more in diameter. An attractive yellowish brown outer skin covers the firm, yellowish white flesh. Very widely used for growing sets. See prices below.

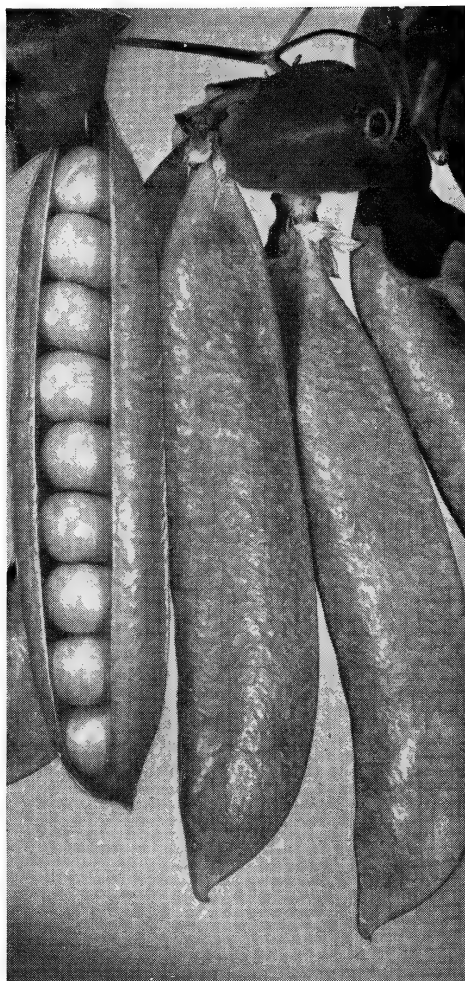

½ lb. of any variety of Onion may be ordered at ½ the 1 lb. price. Not less than ½ oz. of any variety of Onion will be supplied at wholesale.

6072 Evergreen Long White Bunching 120 days. A bulbless perennial, Evergreen Long White is grown for either fall or spring harvest. The vigorous plants produce clusters of long slender stalks. The lower portion of each stem is silvery white and the tops are dark green. Evergreen Long White is an important variety for the green bunching or scallion market. See prices below.

PEAS—wrinkled-seeded early 90 lbs. per acre

French: Pois Spanish: Arvejas
German: Erbsen Italian: Pisello
Portuguese: Erilhas

6223 Burpee's Blue Bantam 64 days. There is no better, sweeter or more delicious pea than Burpee's Blue Bantam. The heavy yielding vines grow 18 in. tall and produce a medium early crop of large, dark green pods. The pods are 4 in. long, pointed, rather slender and contain 7 to 9 large, sweet, deep green peas of a distinctly superior flavor. Blue Bantam is an excellent variety for freezing and popular for fresh local market sale because of its superb quality and the productivity of the vines. See prices below.

6225 Little Marvel 63 days. Dark green, nearly round, square-ended pods are 3 in. long and tightly packed with 7 or 8 large, delicious, deep green peas. Vines are 18 in. tall. With Little Marvel you can expect heavy yields, high quality, attractive appearance and superior flavor. An excellent variety for freezing. Little Marvel is also recommended for local market sale. See prices below.

5176 Progress No. 9 60 days. One of the earliest, long podded peas, it is good for fresh market production. The 15 to 20 in. vines mature a heavy set of 4½ in. pods that are filled with 7 to 9 peas of excellent flavor and quality. High resistance to fusarium wilt is one of the outstanding features of Progress No. 9. See prices below.

6226 Wando 68 days. The vigorous vines grow 2½ ft. tall and produce a heavy yield of 2½ to 3 in. pods that are dark green, blunt and well filled with 7 or 8 tender, medium size peas. Recommended for freezing and fresh market sale, this unusual variety is not only very tolerant of hot weather but also of cold. See prices below.

5175 World's Record 63 days. A good quality, productive variety, World's Record is especially suited to freezing and local fresh market sale. The vines grow about 3 ft. tall and produce pods 3½ in. long, nearly straight, pointed at tip and a medium green color. The pods hold 6 to 8 large, tender peas of delicious flavor. Ours is the improved strain selected particularly for earliness. See prices below.

Burpee's Quality Control Is Your Protection

The W. Atlee Burpee Co. is a major grower of flower and vegetable seeds and produces itself most of the seed it sells. Field trials of all varieties Burpee lists are accomplished at Burpee's Fordhook Seed Farms in Pennsylvania. Information is taken at each stage of growth so all facts concerning the performance of each variety is available to Burpee plant scientists. Burpee's Seed Laboratory in its Philadelphia Office is busy the year around making periodic germination tests on every lot of seed. These safeguards to quality are an unseen value of all Burpee Seeds.

California Wonder Pepper. Always attractive and tasty.

6081 California Wonder 75 days. The good sized, 3 and 4 lobed fruits are borne upright on 24 to 30 in. tall plants. Thick-walled and blocky, the fruits have tender flesh of a mild, delicate flavor. The peppers are about 4 in. long and 3 to 3½ in. in diameter with smooth glossy green skin. A reliable producer of attractive, tasty peppers, it is a widely grown fresh market variety. See prices on opposite page.

5042 World Beater 73 days. Tall, erect plants grow 24 to 30 in. high and produce a heavy yield of large, 3 and 4 lobed fruits. Grown commercially for fresh market sale and for canning, the uniformly shaped fruits are 5 in. long, have a 3½ in. diameter at the stem end and slightly taper toward the blossom end. Their flesh is medium thick, firm, mild and sweet flavored and the dark green skin turns to bright red as the peppers mature. See prices on opposite page.

World Beater Pepper for fresh market and canning.

PEPPERS

¼ lb. per acre

French: Piments

German: Pfeffer

Spanish: Pimiento, Chile

Italian: Peperone

Portuguese: Pimentão

6088 Burpee's Early Pimento 65 days. All-America Winner. Upright growing and highly prolific, the 2½ ft. tall plants bear pendant, heart-shaped fruits. When mature the smooth heavy walled fruits are 3½ in. long and have a 2½ in. diameter at the stem end. The sweet, mild flavored flesh is ½ to ¾ of an inch thick and as the fruits ripen their dark green color changes to a bright red. Unquestionably a top quality, red pepper, Burpee's Early Pimento is always in demand for canning, brining and dehydrating and its high yielding, vigorous habit of growth is popular with commercial growers. See prices on opposite page.

6835 Early Calwonder 69 days. The vigorous, medium sized plants bear a prolific set of fruits in an upright position. The fruits are dark green, 3 and 4 lobed and blocky with a slightly tapered shape similar to California Wonder but smaller. This is an early maturing type that is good for local or distant market sale. See prices on opposite page.

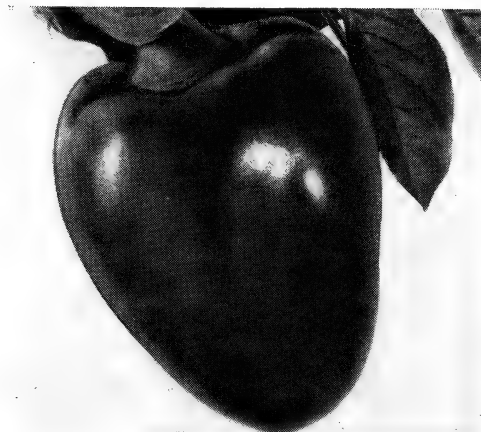

6836 Florida Giant 75 days. A large fruited, California Wonder type. The dark green, blocky, thick walled fruits are 3 or 4 lobed, and are borne upright on plants that make a vigorous growth of heavy foliage cover. It is grown extensively for fresh sale at both local and distant markets. See prices on opposite page.

5282 Long Red Hot Cayenne 72 days. Often curled and twisted, the peppers grow 5 to 6 in. long, ½ in. in diameter and taper to a point. An abundance of these very hot fruits are borne pendant on 24 to 30 in. tall plants. A dark green color at first, the peppers change to a bright red at maturity. Easy to dry and a successful pickling and canning variety, Long Red Hot Cayenne is widely grown for the hot pepper trade. See prices on opposite page.

5185 Yolo Wonder 76 days. This tobacco mosaic resistant variety is widely grown for fresh market sale and for the shipping and processing trade. The compact, erect growing plants are 30 in. high, have dense foliage and bear an abundance of dark green fruits which are four-lobed of the California Wonder type with very thick, firm, sweet flesh. The vigorous, mosaic-resistant plants are popular with commercial growers for their high yield of quality fruits. See prices on opposite page.

Yolo Wonder Pepper. High yield of quality fruit.

Burpee Early Pimento Pepper. A top quality pepper.

I. A. Condit, Farm Manager, noting pepper trials at Burpee's Santa Paula, California, Seed Farms.

Long Red Hot Cayenne (above) and Hungarian Wax Pepper

Cherry Belle, ideal for bunching and prepack trade

6085 Cherry Belle 22 days. All-America Winner. A round, smooth, red-skinned radish, it is $\frac{3}{4}$ in. across and resembles a cherry in shape and color. Flesh is white, crisp and firm. The radishes retain their good eating qualities for a long time. This combined with their attractive color, ideal shape, short tops and extra early maturity make Cherry Belle an ideal variety for the bunching and prepack trade. A popular grower's variety it is adapted for forcing under glass and for field production. See prices on opposite page.

6092 Comet 25 days. All-America Winner. A good forcer, Comet is in demand for local market and distant shipping because of its excellent eating and keeping qualities. The tender, white flesh remains crisp and solid for a long time. Radishes average 1 in. across, are round, with an occasional olive shape. The quality radishes have bright scarlet skin and short tops. See prices on opposite page.

5046 French Breakfast 23 days. The oblong to deep olive-shaped roots have rose-scarlet skin on the upper portion and shades to a clear white on the lower portion. The firm, white flesh is crisp, tender and mild flavored. Suited to forcing or field growing for local market sale. The roots are marketable to $1\frac{3}{4}$ in. long and $\frac{3}{4}$ in. in diameter. French Breakfast is very quick to become pithy and should be pulled early. See prices on opposite page.

White Icicle, the most popular long white radish

RADISH—earliest

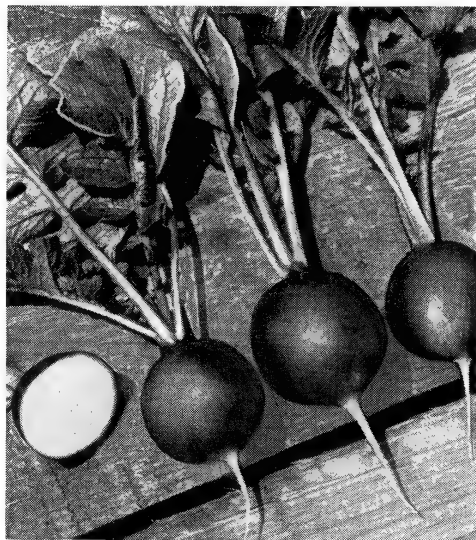

10-12 lbs. per acre

French: Radis
German: Rettich, Radischen
Portuguese: Rabanete

Spanish: Rabanito
Italian: Ravanella

6096 Burpee White 25 days. An outstanding variety for local and distant shipping markets. Exceptional tenderness, mild flavor, crispness and remaining long in an edible condition are the most outstanding qualities of Burpee White Radish. When young, roots are nearly round, juicy and sweet with pure white skin and flesh. They are at best harvest stage when $\frac{3}{4}$ to 1 in. in diameter but are crisp, mild and tender even if allowed to grow 2 in. across. The strap leaved foliage is medium height. See prices on opposite page.

6252 Champion 28 days. All-America Winner. The brilliant scarlet color and highly refined tap roots of this new variety plus the fact that they will attain the size of a silver dollar without becoming pithy make Champion an excellent item for the prepackage trade and for roadside stand sales. Tops are a bit large and not suitable for most of the bunching trade. See prices on opposite page.

Comet. A good forcing radish that is in demand for local markets and shipping

6838 Scarlet Globe Short Top 24 days. A popular market growers radish, it is well adapted to glass-forcing and field growing. The attractive, bright scarlet roots are round with crisp, white flesh. They are marketable at 1 in. diameter and the good shape and short tops are desirable for bunching. See prices on opposite page.

5044 Sparkler 25 days. A good market variety of fine appearance and high quality. The round to round-oval roots have deep scarlet skin on upper part with $\frac{1}{2}$ of lower portion clear white. The tap root is slender and small, has a tasty, snappy flavor and the crisp, juicy flesh is pure white. See prices on opposite page.

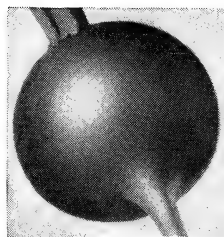

6095 White Icicle 28 days. The most popular of all long white radishes. Grown to sell in local or distant markets. White Icicle is useful for forcing or field production. The long, white roots taper to a point and are marketable at a 5 to 6 in. length with $\frac{1}{2}$ to $\frac{3}{4}$ in. diameter. The skin is pure white, thin and the white flesh is tender, crisp and mild flavored. See prices on opposite page.

SOY BEANS—vegetable or edible (Page 6)

Ted Torrey, Burpee's Fordhook Farms Manager, examining a row of Bloomsdale Long Standing Spinach.

SPINACH

12-20 lbs. per acre

French: Epinauds Spanish: Espinaca
German: Spinat Italian: Spinacio
Portuguese: Espinafre

6093 Bloomsdale Long Standing 48 days. A heavy yielder of delicious "greens." The uniform plants have glossy, dark green, savoyed leaves that are intensely crinkled in addition to being of a very thick texture. The rather erect plants remain in the rosette stage for a long time without bolting. A good quality spinach, Bloomsdale Long Standing is in demand for pre-packaging, loose, fresh market sale, and for canning and freezing. See prices below.

1/4 lb. of any variety of Spinach may be ordered at 1/2 the 1 lb. price. Not less than 1/4 lb. of Spinach will be supplied at wholesale.

	1/4 lb.	1 lb.	2 to 9 lbs. per lb.	10 lbs. or more per lb.

TAMPALA or Fordhook Spinach

1/2 lb. of Tampala may be ordered at 1/2 the 1 lb. price. Not less than 1/4 oz. of Tampala will be supplied at wholesale.

	1/4 oz.	1/2 oz.	Oz.	1/4 lb.	1 lb.
5341 Burpee Fordhook (Dark Green)	\$0.30	\$0.50	\$0.95	\$2.75	\$8.00

Virginia Blight Resistant Spinach. Dark green, savoyed leaves, for fresh market sale.

5052 Virginia Blight Resistant 42 days. The large, dark green leaves are well savoyed and the plants are resistant to mosaic or blight. Virginia Blight Resistant is often grown for a fall crop or for wintering over. It is good for fresh market sale as well as for the canning and freezing trade. See prices below.

5077 Hybrid No. 7 42 days. The very large, upright plants have partly savoyed, dark green leaves. The vigorous plants are resistant to downy mildew. Grown in the fall, Hybrid No. 7 is well adapted to mechanical harvesting. It is an outstanding variety for freezing, canning and fresh market. See prices below.

Burpee Hybrid Zucchini Bush Squash

6236 Burpee Hybrid Zucchini (Bush) 50 days. True F₁ Hybrid of the Fordhook Zucchini type it matures a week earlier and is a heavier yielder. The medium-sized, compact, bush-like plants are prolific producers of shiny, medium green, cylindrical fruits. The quality fruits are at best when 6 to 9 in. in length. Outstanding for flavor and fine texture, the market demands for Burpee Hybrid Zucchini are constantly increasing. See prices below.

½ lb. of any variety of Squash may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Squash will be supplied at wholesale.

6117 Caserta	\$0.35	\$0.85	\$2.50	\$2.35	\$2.25

Early Golden Summer Crookneck Squash

SQUASH—summer

2-3 lbs. per acre

French: Courges

German: Speise-Kürbis

Portuguese: Abobrinha

Spanish: Calabaza

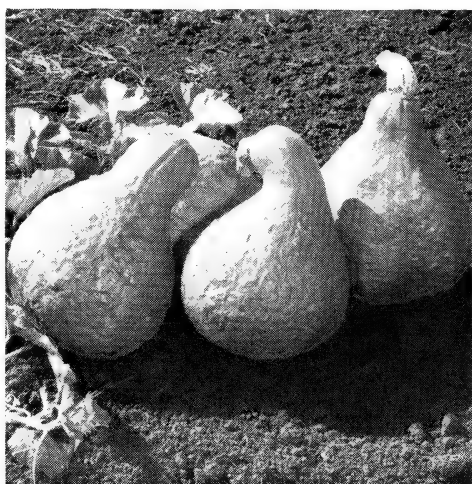

Italian: Zucca

5063 Cocozelle Bush, Long Type 60 days. The cylindrical fruits are marketable up to a 14 in. length with a 4 in. diameter but their best quality is at a 6 to 8 in. length. Skin is dark green striped with lighter green and the greenish white flesh is tender yet firm. An outstanding strain of summer squash, Cocozelle Bush is popular with local market growers and shippers. See prices below.

6103 Early Golden Summer Crookneck 53 days. The most popular summer, curved neck squash. The bush-like vine is a heavy yielder of crookneck, bright yellow-skinned, slightly warted fruits. The fruits are usable up to a 10 in. length and a 3 in. diameter but the market often prefers the fruits that are harvested before full length is reached. Flesh is salmon-orange, fine textured and of delicious flavor. This reliable, productive variety is recommended for shipping and for processing. See prices below.

6106 Early Prolific Straightneck (Bush) 50 days. All-America Winner. This very popular yellow summer bush squash is in demand in many markets. The young 4 to 6 in. fruits taper toward the stem end and are most attractive. The skin is a light glossy butter yellow color, and the creamy yellow flesh has a delicate flavor. This variety produces a heavy set of fruits if kept picked, and our strain is constantly reselected for uniformity, clearness of color and high yielding ability. See prices below.

Oz.	¼ lb.	1 lb.	2 to 9 lbs. per lb.	10 lbs. or more per lb.

.35	.85	2.45	2.30	2.20

Boston Marrow, a vine type fall and winter Squash.

SQUASH—summer and winter

2-3 lbs. per acre

6112 Burpee's Bush Table Queen (bush) 80 days. Fruits are similar in size, shape and color to other green acorn varieties but they are smaller than Royal Acorn. The bush type plants produce as many fruits per plant as the vine varieties and the bush habit of growth makes it possible to grow more plants per acre. This higher yield per acre and the good keeping and shipping qualities of the fruits have made Burpee's Bush Table Queen a popular grower's variety. See prices below.

6108 Royal Acorn (vine) 82 days. The vigorous vines produce a high yield of large, acorn-shaped fruits that are 7½ in. long and 6 in. in diameter. The skin is a dull dark green color and it turns to dull orange after a period of storage. The orange flesh is fine flavored, up to 1½ in. thick, dry and sweet. A very popular variety for winter market sale because the excellent "king size" fruits store well. Royal Acorn is a quality variety and has wide acceptance for local and distant market shipping. See prices below.

½ lb. of any variety of Squash may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Squash will be supplied at wholesale.

	Oz.	¼ lb.	1 lb.	2 to 9 lbs. per lb.	10 lbs. or more per lb.

5057 Table Queen Vine or Acorn35	.85	2.50	2.35	2.25

Royal Acorn Squash. A popular variety for winter market sale.

SQUASH—fall and winter

2-3 lbs. per acre

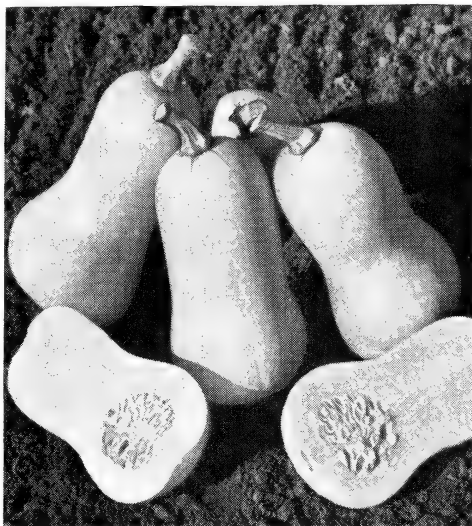

5056 Blue Hubbard (vine) 120 days. Large, attractive, blue-gray fruits that are ridged and bumpy grow on vigorous vines. The shell is rough and hard so the keeping qualities are good. Fruits run 15 to 18 in. long and 9 to 12 in. in diameter; weigh about 15 lbs. and have the typical "Hubbard" shape. Flesh is bright yellow-orange, fine grained, dry and exceptionally sweet. Blue Hubbard is outstanding for fall and winter storage. See prices below.

6844 Boston Marrow (vine) 97 days. Fruits range from 12 to 15 in. in length and 9 to 12 in. in diameter and weigh 9 to 15 lbs. They are widely grown for the processing market, particularly for canning and for freezing "pie meat." Similar in shape to the Hubbards, with thicker neck and more flattened blossom end, and the skin is deep scarlet orange, slightly ridged and "warted." The orange-yellow flesh is thick, moist and fine grained. See prices below.

6115 Butternut (vine) 85 days. Outstanding for its sweet, nutty flavor, the consumer demand for this variety is steadily increasing. The elongated, pear-shaped fruits are about 10 in. long, 4 to 5 in. in diameter and have buff colored skin. The vigorous, tough vines resist squash borer invasions. The high quality flesh is light orange, dry and fine textured. Butternut stores well for local market sale or shipping through the fall and winter. See prices below.

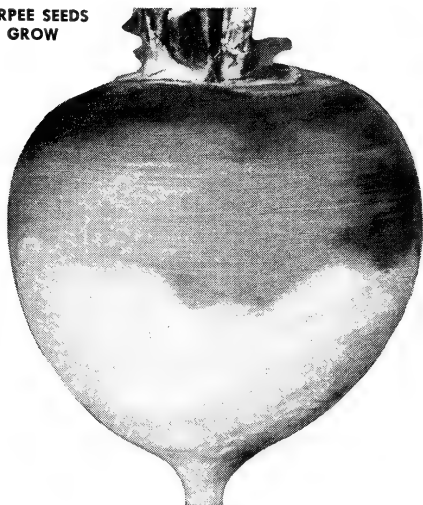

½ lb. of any variety of Squash may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Squash will be supplied at wholesale.

	Oz.	¼ lb.	1 lb.	2 to 9 lbs. per lb.	10 lbs. or more per lb.

TURNIPS

1 1/2-2 lbs. per acre

French: Navets

German: Speise-Rüben

Spanish: Nabos

Italian: Navone, Rapa

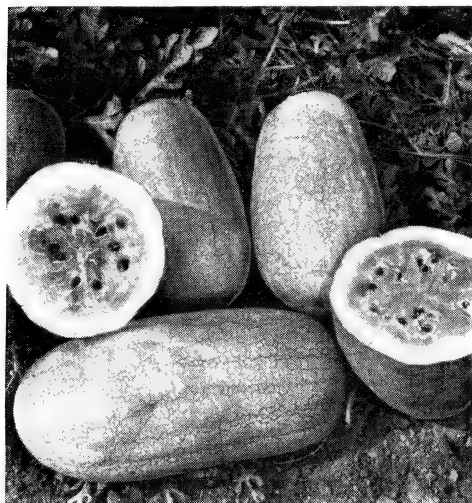

Portuguese: Nabos

5076 Foliage or Shogoin 30 days for foliage; 70 days for roots. A double purpose turnip—it is widely grown for the commercial root market as well as for the “greens” market. Large, bright green, strap leaved tops grow to about 18 to 20 in. and the plentiful foliage is tender and mild flavored. The top shaped roots have a 3 in. diameter and white skin and flesh. A quick growing variety, Foliage or Shogoin is particularly popular for its very attractive appearance and good quality. See prices below.

6121 Purple-Top White Globe 55 days. This is by far the most popular table turnip and our strain is noted for its even size, globular shape and rich purple color of the above-ground portion of the root in contrast with the pure white below-ground portion. Flesh is white and firm with a mild sweet flavor. Purple Top White Globe is unsurpassed for market and winter storage. See prices below.

6853 Seven Top 45 days. A winter hardy variety, Seven Top is widely grown in the south for the greens. The root is tough and inedible and the leaves are numerous and spreading. The greens are produced commercially for both table use and for stock feeding. See prices below.

Charleston Gray. Popular southern commercial variety of watermelon. Good shipper and good seller.

Burpee's Fordhook Hybrid F₁ Watermelon. A top quality early, productive melon with red flesh and small seeds.

Congo. Anthracnose resistant watermelon.

New Hampshire Midget Watermelon.

WATERMELON

3-4 lbs. per acre

French: Pastèques
German: Wassermelon

Spanish: Sandía
Italian: Anguria
Portuguese: Melancia

6245 Charleston Gray 85 days. It combines the ideal qualities of a good shipper, eye appeal and fine eating quality with resistance to fusarium wilt, anthracnose and sunburn, and is especially suited for growing in southern states. The fruits grow to 24 in. long and 10 in. in diameter and weigh 28 to 35 lbs. Skin is light gray green with darker green veining; rind is tough; flesh red and crisp and the seeds are dark brown. See prices below.

6078 Congo 90 days. All-America Winner. Melons are oblong and grow to 30 lbs. or more. Flesh is bright red, firm and sweet and surrounded by a thin, tough rind. The medium-green colored skin is marked with dark green stripes and the seeds are light tan with dark markings on the sides. Plants are resistant to anthracnose. A good commercial southern shipping variety. See prices below.

½ lb. of any variety of Watermelon may be ordered at ½ the 1 lb. price. Not less than 1 oz. of any variety of Watermelon except Burpee's Fordhook F₁ Hybrid will be supplied at wholesale.

6065 Dixie Queen, Wilt Resistant 90 days. Market growers plant this variety and make successful crops as far north as the Middle Atlantic States. The oval-round, blocky fruits weigh 30 to 35 lbs. A tough, thin rind of good shipping quality protects the deep red, sweet, fiberless flesh. Seeds are white and the skin is light green covered with distinct dark green stripes. Vines are resistant to fusarium wilt. Dixie Queen is recommended for local market sale and is especially important to growers for the shipping trade. See prices below.

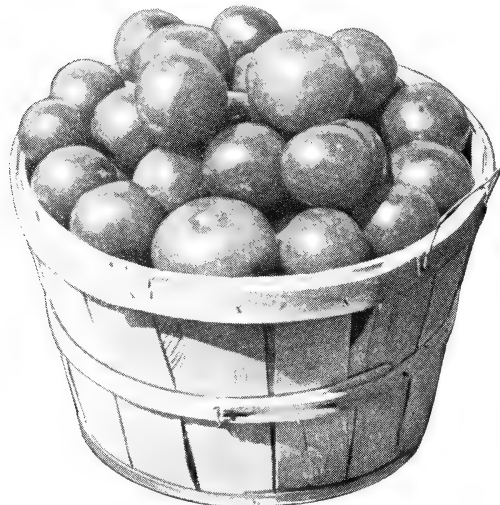

6068 New Hampshire Midget 70 days. All-America Winner. Small, nearly round fruits measure 7 in. long by 6 in. across and weigh up to 6 lbs. The light red flesh is solid and sweet with small, black seeds and the skin is light green with thin, dark green stripes. Small, vigorous vines are heavy yielding and grow well in northern states. The melons are popular for the local market, hotel and restaurant trade. New Hampshire Midget is suitable for shipping only if given special packing. See prices below.

Staked plants of Big Boy Giant Hybrid Tomato and Rutgers grown side by side, show the superiority of Big Boy (right) in profusion and size of fruits.

6123 Burpee's BIG BOY® Giant Hybrid 78 days. Largest of our true first-generation (F₁) hybrids. At its peak of production in midseason when many standard varieties decline in yield and size of fruit. Unlike other large varieties, Big Boy Tomatoes are perfectly smooth, deep globe to deep oblate in shape, very firm, extra large, many weigh 1 lb. and more; some 2 lbs. and over. Scarlet-red skin, thick walls, bright red, meaty flesh of fine flavor and excellent quality. Big Boy plants are large, extremely vigorous and heavy producers. Readily saleable at market and roadside stands. See prices on opposite page.

Burpee's Big Boy Giant Hybrid Tomatoes

TOMATO—Burpee F₁ Hybrids red fruited

3 ozs. per acre

French: Tomates

German: Tomate

Portuguese: Tomate

Spanish: Tomate

Italian: Pomodoro

Hybrid tomatoes are strong, vigorous growers and have the ability to outyield regular varieties, the extra quantities coming, in large measure, from the soil. It can be readily understood that because Hybrid Tomatoes can produce larger plants and higher yields they must be fed more than standard tomatoes. Tests have shown that hybrid tomato seedlings started in 4 in. pots or 4 x 4 in. bands, produced earlier and heavier yields than those started in 2½ in. pots or 2 x 2 in. bands when transplanted to the garden. To produce a maximum crop of large fruits, we recommend that you maintain good fertility and moisture in your soil. For this purpose, it is desirable to make your fertilizer application at the time of transplanting.

Seedbed soil should be kept warm—85° F. daytime; 70° F. at night—and proper moisture content should be maintained in order to assure maximum germination of vegetable hybrid seed.

Burpeeana Early Hybrid. Extra early, scarlet tomatoes borne profusely in clusters from 5 to 8. An excellent shipping tomato.

6136 Burpee's Big Early Hybrid 62 days. Burpee's true first-generation (F₁) hybrid. A second-early hybrid with fruits of main crop size. This is the largest fruited of our early hybrids and has averaged over 7.6 ozs. for the entire season with some fruits up to 1 lb. The fruits are oblate to globular, very smooth, ripening to a bright scarlet right up to the stem. The walls are thick and the bright deep red interior is meaty and of excellent flavor; outstanding firm slicer. Vigorous plants and the foliage gives protection against sunscald. See prices on opposite page.

6113 Burpee Hybrid 70 days. Heavy yielding, main-crop, all-purpose true first-generation (F₁) hybrid which is successful for the greenwrap trade. Burpee Hybrid is also suitable for forcing under glass for fresh local markets. Fruits are medium to large, average 8 ozs. in weight, deep globular in shape, smooth, scarlet-red, flesh meaty, firm; cell walls very thick. Burpee Hybrid is of outstanding quality and rich flavor. See prices on opposite page.

Burpee sales aids help you sell. Let your customers know your plants are grown from Burpee Seeds. See pages 2 and 3 of this Blue List catalog.

TOMATO—Burpee F₁ Hybrids

red fruited

6125 Burpeeana Early Hybrid 58 days. Distinctly different extra early, true first-generation (F₁) hybrid tomato created at Burpee's Fordhook Farms, to offset the usual shortcomings of many of the open-pollinated early varieties. Fruits of Burpeeana Early are of an attractive deep globular shape, medium size, smooth, firm, rich scarlet, average 5 ozs. in weight, and borne profusely in clusters of from 5 to 8. Quality is excellent. Plants are of spreading habit, prolific and decidedly so if high fertility and moisture are maintained in the soil. Profitable for early market, Burpeeana Early is also well adapted for greenhouse growing. It is an excellent shipping tomato. See prices below.

5071 Burpee Calcross 69 days. Early, true first-generation (F₁) hybrid developed primarily for use in California and has done well in other sections. Fruits are medium-large, slightly flattened globe-shaped with bright red skin and firm, meaty flesh of excellent quality. Plants are vigorous. See prices below.

6131 Clinton Hybrid 75 days. Midseason, true first-generation (F₁) hybrid developed especially for the Middle-west and well adapted to other regions. Fruits are large, weigh about 8 ozs., bright scarlet, globular to oblate in shape; flesh is firm. See prices below.

6135 Fordhook Hybrid 60 days. An early, highly productive, long-bearing, true first-generation (F₁) hybrid, noted for its uniformly shaped, smooth fruits of medium size, averaging 6 ozs. It is clear bright red, oblate to globular in shape and borne in large clusters. See prices below.

½ lb. of any variety of Hybrid Tomato may be ordered at ½ the 1 lb. price. Not less than ¼ oz. of any variety of Hybrid Tomatoes will be supplied at wholesale.

Hand pollination to produce hybrid tomato seed.

Each seed of an F₁ Hybrid Tomato and other F₁ hybrid vegetables is produced by carefully controlled crossing, often by hand, of two distinct parent lines. This requires much work and entails heavy expense but the resulting seed will produce a hybrid of extreme vigor, more uniform in growth, with bigger yields and better quality. We strongly urge that special care and attention be given to sowing of the seed and growing of the crop. Extra care will pay.

Burpee Hybrid Tomato is an outstanding main crop tomato for market, canning and shipping.

Manalucie Tomatoes packed for market. The crops grown by Mr. W. R. Brown, Pompano Beach, Florida, from Burpee Seeds yielded 56,000 lbs. of packed fruit per acre.

1/2 lb. of any variety of Tomato may be ordered at 1/2 the 1lb. price. Nor less than 1/4 oz. of Sunnybrook F₂ or 1/2 oz. of other Tomatoes, except hybrids, will be supplied at wholesale.

TOMATO—red fruited

3 ozs. per acre

French: Tomates Spanish: Tomate
German: Tomate Italian: Pomodoro
Portuguese: Tomate

5278 Homestead No. 2 76 days. A good quality, fresh shipping tomato, Homestead No. 2 is especially adapted to the southern states where it is widely grown by market gardeners. The vigorous, large leaved plants have a semi-determinate habit of growth and are resistant to fusarium wilt. The firm, deep globular fruits are medium sized and the color is a good dark red. See prices below.

5299 Manalucie 87 days. The large sized, deep scarlet-red fruits have a deep globe shape, are firm, and of high quality. Dense foliage provides protection of the fruits against sun scald. The vigorous, late maturing vines have an indeterminate and upright habit of growth. They are resistant to Fusarium Wilt, gray leaf spot and leaf mold and also the vines are tolerant to early blight, black spot and nematodes. A very important variety for the green-wrap trade, Manalucie is particularly valuable in warm, humid areas and in southern latitudes because of its disease resistance. See prices below.

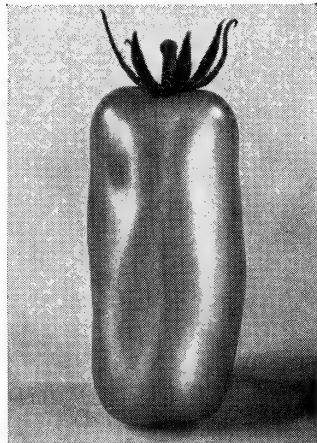

6868 Michigan State Forcing 75 days. A choice variety for forcing under glass, Michigan State Forcing is widely grown to meet the demands of the fresh market winter trade in northern latitudes. The medium sized, scarlet-red fruits are produced in large clusters and each fruit is smooth and deep globe shaped. The vigorous, productive plants are resistant to fusarium wilt. See prices below.

5061 Rutgers 74 days. Good color, fine flavored large fruits and a wide range of adaptation combine to make Rutgers a most popular tomato for all purposes. It is an outstanding canning and fresh market variety. The vigorous, indeterminate, heavy foliaged vines have a high degree of wilt resistance and the large leaves provide dense cover for protection of the scarlet red fruits. The heavy yielding vines produce medium-large, globular, wide-shouldered, smooth fruits that weigh 6 1/2 to 7 1/2 ozs. and have thick walls and small cells. See prices below.

6132 San Marzano 80 days. Highly productive and extensively grown for canning whole, for puree and making "tomato paste." Fruits are rectangular-shaped, 3½ in. long and 1½ in. across, non-cracking, flat sided, borne in clusters and with the most intense red of all commercial tomatoes. Exceptionally meaty, free from juicy pulp and of a very mild flavor, the ripe fruits are long-lasting on the vine or in storage. The open, vigorous vines are very high yielding.	.80	1.45	4.35	13.00	12.75	12.50

ASTERS

*Blue Bonnet,
Burpee's Curlilocks
Aster*

Both Curlilocks Asters, shown above, and Burpeeana Early Asters, shown below, are outstanding for their erect, sturdy growth which provides exceptionally long, strong stems for cutting.

Curlilocks®

Extra early, erect, Ostrich Plume Asters As Grown by Burpee

The first extremely early asters with ostrich-plumed flower heads, resembling the Cregos, borne freely on tall, erect, strong, stems. The large fluffy flowers, 3 to 4 in. across, are made up of gracefully curled petals. The sturdy plants bloom extremely early in the season and have outstanding improvements in plant habit. At least 6 to 8 long stems are topped with flowers all in bloom at the same time. Includes colors new to asters. Grow 20 in. tall.

4445 All Colors Mixed .	.70	1.20	2.10	6.50

Burpeeana Extra Early Asters

Burpeeana Asters are of uniformly upright, compact habit of growth and come into bloom extremely early. Flowers are globular, double, 3 to 4 in. across, with attractively incurved petals.

Plants are of erect, sturdy growth, and average 20 in. in height, with many stems per plant, each stem topped with a flower somewhat resembling the American Beauty in shape. Terminal flowers come into bloom at about the same time, thus making a grand showing. In our plantings, Burpeeana Asters reach the peak of their bloom two weeks or more earlier than any other asters with the exception of Curlilocks, with larger and better shaped flowers and longer, stronger stems.

California Giant Double Asters

4031 All Colors Mixed California Giants combine the plume or feathered type of flower with the long, straight stems of the American Beauty class. The large, double flowers with long, attractively curled petals grow 5 in. and more in diameter, on stems $1\frac{1}{2}$ to 2 ft. long. Plants are vigorous, freely branching, grow $2\frac{1}{2}$ ft. tall and bloom profusely from late midseason until frost.

$\frac{1}{16}$ oz. 50¢; $\frac{1}{8}$ oz. 90¢; oz. \$3.00; $\frac{1}{4}$ lb. \$9.00

Giant Crego Asters

Also known as Giant Branching Comet

Large flowers, 4 to 5 in. across, with long, ribbon-like, gracefully curled and twisted petals, forming a lovely shaggy appearance. Long stemmed; fine for cutting. The plants are strong growing, of branching habit, 2 ft. tall and bloom in midseason. One of the most popular.

3078 Charming NEW THIS YEAR Pure rose-pink petals twist and curl to form a most attractive flower head. An exceptionally striking color.

Giant Branching ASTERS

Also known as American, Semple's or Vick's Branching

From midsummer until frost these asters will produce a profusion of beautiful flowers. The blooms are quite large, $3\frac{1}{2}$ to 4 in. across, and fully double. Plants grow $2\frac{1}{2}$ ft. tall and branch freely, producing stems frequently 2 ft. long, which makes them especially fine for cutting. Flowers have good substance, and therefore are very long lasting.

American Beauty Asters

Come into bloom shortly after the Giant Branching. Plants are of branching habit, vigorous, 2 to $2\frac{1}{2}$ ft. tall, and very profuse blooming. The flowers are globular, fully double, with prettily incurved petals and grow 4 in. and more across. Noted for their unusually long stems which make them one of the best for cut-flower purposes. We offer the mid-season type; ideal for general planting.

4415 Burpee's Blue Beauty An exquisite wisteria-blue shade that is prized for cutting. Long stems add to its value.
 $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.25; $\frac{1}{4}$ oz. \$2.00; oz. \$6.00

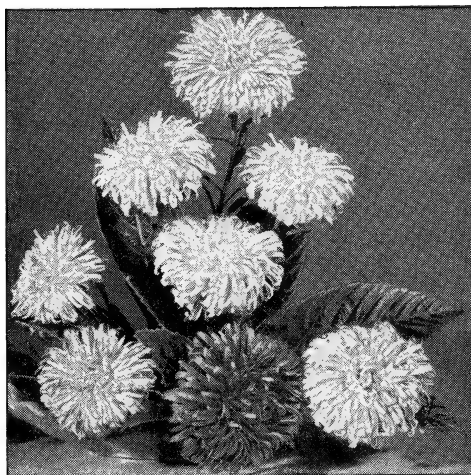

4427 Burpee's Orchid Beauty An entirely new and lovely color to the American Beauty type—a delightful orchid-rose.

Burpee's Giant Fluffy Asters

Burpee's Giant Fluffy® Asters

The best of the Giant Plumed Asters
as grown by Burpee

Burpee's Giant Fluffy Asters are the finest of the feathery class—flowers are extra large, 5 in. and more across, of great substance and magnificent form; the long petals are artistically curled and resemble ostrich plumes. Bloom from early to late midseason. Wonderful for cutting. Grow $1\frac{1}{2}$ to 2 ft.

	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.

Gloriosa Daisies

Gloriosa Daisies (Giant Hybrid Tetraploid Rudbeckia) are perennial although they can be treated as an annual because the plants flower the first season if seed is sown early. Vigorous, 2 to 2½ ft. plants withstand hot summers and winter over in zero weather. Grown as an annual or perennial for plant sales. Flowers are large and showy, and being hybrids some semi-double and double flowers may appear in plantings of single flowered varieties.

Larkspur growing for seed on Burpee's Floradale Farms

Larkspur, Barcelona. A new blue and white bicolor.

LARKSPUR

Burpee Wonder

Strong, upright spikes are produced from the base, presenting a solid, erect, column-like appearance, the upper half being covered with large double flowers, 1 1/2 in. across. These extremely long-stemmed larkspurs are especially desirable for all cut-flower purposes. They grow about 3 1/2 ft. tall and bloom profusely.

BURPEE'S MARIGOLDS

Climax

Giant Hybrid American Marigolds

Climax Marigolds are the result of twenty years of Burpee research to create giant F_1 Hybrid American Marigolds with all the virtues of a perfect flower. Properly grown, the tremendous, almost globular blooms reach sizes up to 5 in. across and nearly as deep. While of giant size, the fully double flowers have unusual grace and charm for the satiny petals are deeply ruffled and frilled. Toreador, 2 ft. tall, others $2\frac{1}{2}$ to 3 ft. high. All bear an abundance of flowers on long, graceful, cutting stems from midsummer until frost.

4447 Golden Climax Golden yellow; clear; vivid.

4153 Toreador Deep mid-orange; darker center.

4443 Yellow Climax Bright yellow waved flowers.

4446 Climax Mixed The above and other colors.

Any of the above Climax Marigolds:

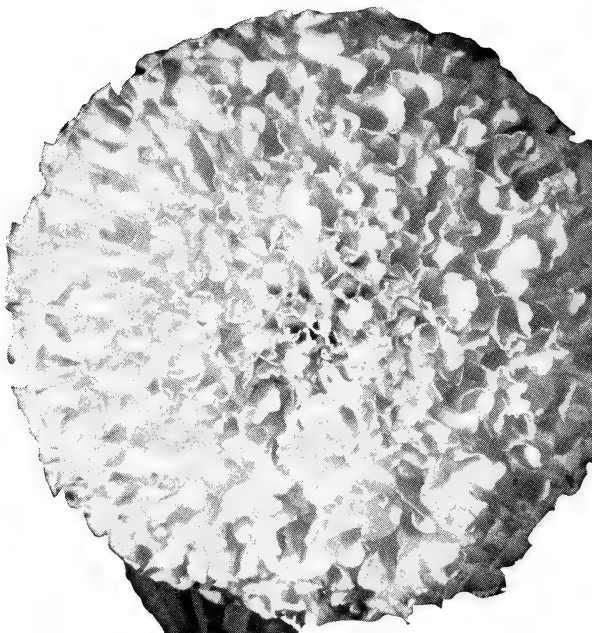

$\frac{1}{16}$ oz. \$2.50; $\frac{1}{8}$ oz. \$4.50; $\frac{1}{4}$ oz. \$8.00; oz. \$25.00

Burpee's Red and Gold Hybrids

Double Hybrids of American and French Marigolds

4154 Exceedingly double, $2\frac{1}{2}$ to 3 in. across. Some are solid red while others are delightful combinations of red and gold. Color varies with the season. Plants grow 2 ft. tall; come into flower in 8 weeks from seed and continue to bear profusely and continuously until frost.

$\frac{1}{16}$ oz. \$1.25; $\frac{1}{8}$ oz. \$2.25; $\frac{1}{4}$ oz. \$4.25; oz. \$14.00

Golden Climax, Giant American F_1 Hybrid Marigold

Red and Gold Hybrid Marigolds, double hybrids of American and French Marigolds.

Carnation Flowered

3116 Alaska NEW THIS YEAR A very light primrose color. The 2 ft. plants produce well-formed flowers up to 4 in. across. ($\frac{1}{16}$ oz. \$1.00)

3221 Burpee Gold Carnation-like bright orange flowers $3\frac{1}{2}$ to 4 in. across. Petals are long and arranged rather loosely which is most attractive. Plants have odorless foliage. $2\frac{1}{2}$ ft.

3096 Fancy Frills Bright, golden orange flowers with frilled petals. Well-rounded flowers, $3\frac{1}{2}$ in. across, 2 ft. tall. ($\frac{1}{16}$ oz. \$1.00)

4131 Frills Flowers grow $3\frac{1}{2}$ in. across, clear, golden-orange with petals frilled and waved. Plants grow 2 ft. tall with odorless foliage.

3119 Hawaii NEW THIS YEAR The finest marigold ever created with slightly sweet scented flowers and odorless foliage. Hawaii is a rich orange beauty with 4 in. flowers. 2 ft. ($\frac{1}{16}$ oz. \$1.00)

4151 Man-in-the-Moon Plants grow 3 ft. and bear round, carnation-like blooms 3 to $3\frac{1}{2}$ in. across with broad, crisply ruffled, pale moon-yellow petals with lighter highlights.

3109 Mary Helen NEW THIS YEAR The flowers are brilliant yellow, well-formed, carnation-like and grow up to 4 in. across. Long, strong stems for cutting carry flowers that fairly cover the attractive 20 in. plants. ($\frac{1}{16}$ oz. \$1.00)

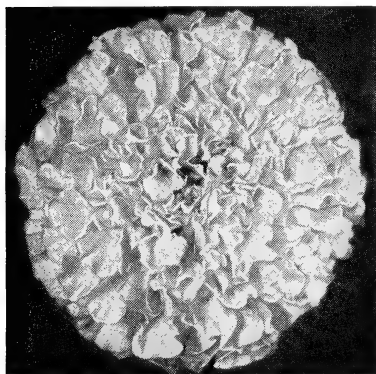

4152 Smiles An early blooming marigold with bright golden yellow flowers, 3 in. across, with broadly ruffled, wax-like petals. 3 ft. tall.

3099 Whitey NEW THIS YEAR Flowers vary in size from 2 to 3 in. across, and in color from a light creamy yellow to almost pure white. The erect, bushy plants grow 20 in. tall with waxy bright green foliage. ($\frac{1}{16}$ oz. \$3.00)

4147 Carnation Flowered Mixed Grow from 20 to 30 in. tall.

4182 Mixed Carnation Flowered Marigolds with Odorless Foliage Orange, golden yellow, and primrose flowers in a grand mixture. Plants grow 2 to $2\frac{1}{2}$ ft. tall.

Man-in-the-Moon, Carnation Flowered Marigold

Giant Fluffy MARIGOLDS

Chrysanthemum Flowered

Giant Fluffy Marigolds are a delightful type of chrysanthemum-flowered marigolds. The well-rounded flowers of Yellow Fluffy and Golden Fluffy have gracefully interlaced, loosely arranged petals which gives them an informal, graceful, "fluffy" appearance.

Fluffy marigolds are available in the best marigold colors—bright yellow, golden and deep orange. The giant double flowers, 3 to 3½ in. across, have excellent centers and are borne on strong stems well above the foliage. They are wonderful for cutting and are most attractive in the garden alone or combined with others.

Giant Fluffy Marigolds are one of the earliest types of all American Marigolds, blooming abundantly from early mid-summer until killing frost. Plant habit is upright, vigorous and quite uniform. Grow 2½ ft. tall.

Scotch or Pot Marigold—See Calendula

Hawaii, Carnation Flowered Marigold with odorless foliage

Dwarf Double French Marigold, Tangerine. Bright tangerine-orange flowers 2 in. across, cover the mound-like plants. 15 in. tall.

Gypsy, lively new blend of Dwarf Double French Marigolds that provides the widest range of colors ever seen in Dwarf French Marigolds—primrose, yellow, gold, orange, mahogany-red, and combinations of these colors. Fully double, 1½ in. flowers literally cover the 10 in. mound-like plants.

Dwarf Double French Marigold, Flame. Flowers open deep scarlet and turn to rich tangerine as they age with the petals strikingly accented by a gold edge. Flowers are fully double, 1¼ to 2 in. across. 10 in.

Dwarf French MARIGOLDS

Burpee has become known as "Marigold Headquarters" by originating so many of the better marigolds in general use. The fine, originator's stocks of such dwarf varieties as Spry, Sunny, Rusty Red, Naughty Marietta, Ruffled Red, Pygmy and Flame are valuable for pots and combination boxes. They are popular and profitable bedding plants.

Dwarf Double French

Exquisite blooms, 1¼ to 2 in. across, in orange, yellow and mahogany, as well as combinations of these colors. French Marigolds should be grown in soil that is not overly rich. Burpee's Dwarf Double French Marigolds grow 6 to 18 in. tall according to variety and locality.

4192 Mixed Colors.....			

Magic Carpet Portulaca, Double Mixed, for certain success.

Pyrethrum roseum, Startler. Large, single rose colored blooms.

Oriental Poppy. Strong plants with bright blooms for perennial plant sales.

*Burpee's
Floradale
Giant
Pansies*

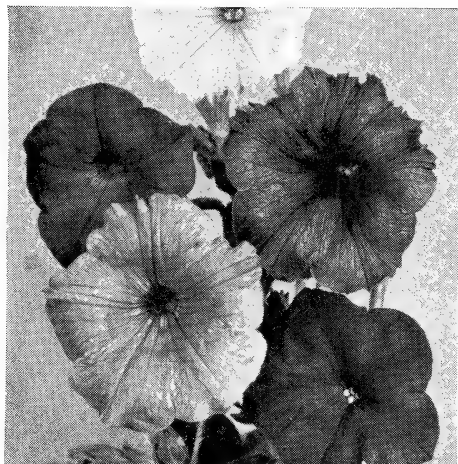

4222 Burpee's Floradale Giants Mixed This is Burpee's outstanding strain of giant pansies developed over a period of years through breeding, close and careful selection. The range of colors is unusually large, including reds, yellows, blues, etc., the majority attractively blotched with contrasting shades. Many of the blooms are nicely waved and fluted. Plants are well-rounded and profuse bloomers. Unsurpassed blend for finest plants and flowers.

1/16 oz. \$2.00; 1/8 oz. \$3.75; 1/4 oz. \$7.25; oz. \$22.00

Burpee's Species Hybrid PETUNIA

4371 Pinocchio This hybrid is the result of crosses between the best bedding petunias and the wild species. Plants have unusual vigor; 2 1/2 in. flowers are clear salmon-cerise with an undertone of orange; slightly star shaped. 2 ft. tall.

1/16 oz. \$1.00; 1/8 oz. \$1.75; 1/4 oz. \$3.00; oz. \$11.00

Crown Jewels Petunias, F₂ Hybrids Mixed

Giant Flowered PANSIES

Pansies always have been a great specialty with us and we are justly proud of our strains. Popular for wide range of colors, markings, forms and easy culture.

4233 Fluffy Ruffles Prize Mixture Marvelous blend of the very best named giant ruffled petunias in a wide range of beautiful colors and markings.	1.00	3.50	10.00

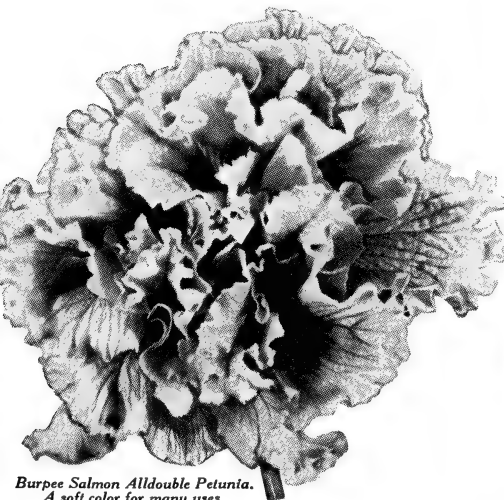

Giant Ruffled
Petunia, Camilla

F₁ Hybrid Alldouble Petunias

Alldouble Petunias are truly gorgeous. The seeds are obtained at such high cost by hand-pollination that they are worth many times their weight in gold. All are excellent for beds, borders, window boxes, pot-plants and cutting.

	1000 Seeds 1/128 oz. 1/64 oz. 1/32 oz. 1/16 oz.				
3374 Allegro Beautifully fringed, full double flowers 3 ½ to 4 in. across, scarlet-salmon in bud opening to an exquisite bright, deep salmon. Plants are 12 in. tall, with 2 ft. spread.	\$4.00	\$7.50	\$14.00	\$27.00	\$52.00
4215 Burpee Orchid Unusually lovely, attractively formed flowers, 4 to 4 ½ in. across, of a rich, light orchid color with deep, rosy purple veins. Intense ruffling and deep fringing add to its beauty. Plants are semi-erect, prolific blooming, about 20 in. tall.	4.00	7.50	14.00	27.00	52.00
4416 Burpee Salmon Loosely double flowers, 4 ½ to 5 in. across, of a most appealing shade of mid-salmon becoming slightly lighter toward the fringe-edged petals. 18 in.	4.00	7.50	14.00	27.00	52.00
4353 Burpee White Glistening white double fringed flowers, 4 ½ in. across, are freely produced on strong growing plants 2 ft. tall. The best white that has been produced.	4.00	7.50	14.00	27.00	52.00
2068 Caprice Beautiful rose-pink flowers are borne on semi-dwarf plants.	4.00	7.50	14.00	27.00	52.00
4224 Colossal Shades of Rose The biggest double petunia ever known, many flowers over 5 in. across. Salmony pink through rose-pink to deep, rich, rosy mauve. Plants 20 in. tall.	4.00	7.25	13.75	26.00	50.00
4197 Mrs. Dwight D. Eisenhower Flowers grow 3 ½ in. across, double and of a soft mid-salmon shade never before seen in any petunia. Plants 16 in. tall and up to 30 in. across.	6.50	12.00	23.00	43.00	—
2069 Nocturne Deep violet purple fully double flowers on vigorous, compact plants.	4.00	7.50	14.00	27.00	52.00
3455 Sonata Pure white, deeply fringed, double flowers of perfect form and good substance, 3 ½ to 4 in. across, are freely borne on plants 1 ½ ft. tall and up to 2 ft. across.	4.00	7.50	14.00	27.00	52.00
4406 Burpee's Best Alldouble Mixture Spectacular wherever grown. Flowers 3 ½ to 4 in. across, finely fringed and ruffled, pure whites, salmon and rose shades, rich salmon-cerise, bicolored rose-pinks, deep rose and deep royal blue. They cannot be surpassed.	4.00	7.50	14.00	27.00	52.00
4391 Giant Alldouble, Glorious Mixture Wonderfully fringed, big, double blooms, round and showy, in many fine colors and shades. Average 15 in. tall, 2 ft. across.	4.00	7.25	13.75	26.00	50.00

Supreme Snapdragon,
Vanguard
All-America
Bronze Medal Winner

All the Snapdragons on
this page were created on
Burpee's Floradale Farms.

Burpee's SUPREME SNAPDRAGONS

The First F₁ Giant Summer Flowering Hybrid Double Snapdragons

Supreme Snapdragons are the most sensational snaps we have ever seen. They will bring all the vigor, flower quality and rich color of a true first generation (F₁) hybrid. The summer-flowering Supremes are characterized by fully double flowers, superior to any other doubles, and are borne on long tapering spikes. Large flowers with many extra petals gracefully ruffled create the completely double blossoms. Vigorous growth and healthy, dark foliage make them superior bedding plants. Excellent for cutting because of strong stems.

4412 Vanguard All-America Bronze Medal Winner. Long, tapered, full spikes of rich cerise-rose flowers, waved and ruffled. Produces dense spikes of almost main spike quality.

3014 Highlife Waved and ruffled, cream colored flowers with yellow lips borne on a gracefully tapered central spike, followed by a profusion of laterals of almost equal quality.

3017 Venus Flowers of clear, soft pink enhanced by a yellow lip, a lovely combination that attracts attention in the garden or when cut. Many beautiful spikes.

3409 Supreme Double Snapdragons, Mixed Colors The above colors and others. Any of above Supreme Snaps: $\frac{1}{4}$ oz. \$3.50; $\frac{1}{2}$ oz. \$6.50; $\frac{3}{4}$ oz. \$12.00; oz. \$22.00

Sentinel®

Giant tall erect snapdragons as grown by Burpee

Have the best flower retention of any snaps we have developed. Well grown plants have spikes of as many as 100 flowers and buds, with up to 40 flowers fully open at one time. The base-branching plants are vigorous with beautiful long, strong-tipped spikes. Plants grow 3 ft. tall.

3245 Cavalier Warm orange flushed with rose. A brilliant color.

3248 Commander Clear rich crimson color for stunning accent.

3271 Guardsman Magnificent tapered spikes of clear yellow.

3306 Majorette A charming and appealing light pink shade.

3167 Sunlight NEW THIS YEAR Spikes of cool, clear, light yellow.

3169 White Spire NEW THIS YEAR Masses of glistening white flowers.

3223 Color Guard, All Colors Blended The above plus others.

Any of the above Sentinel Snaps:

$\frac{1}{4}$ oz. 85¢; $\frac{1}{2}$ oz. \$1.50; $\frac{3}{4}$ oz. \$2.50; oz. \$7.50

Burpee's Tetra Snaps

Giant ruffed tetraploid snapdragons

Tetra Snapdragons are extremely large and attractively ruffled. Plants are exceptionally strong and husky, with glossy, dark green foliage, thick and almost leathery in texture; the stems are quite heavy. Under general field conditions the central spikes grow 2 ft. and more; these are surrounded by lateral spikes of lesser height. Base branching. Wonderful for cutting.

3495 Tetra Candlelight Clear, bright yellow; rich and beautiful.

4267 Tetra Crimson Very large, deep but bright, velvety crimson.

4269 Tetra Pink Shades Blooms of exquisite variations of pink.

3499 Tetra Shades of Rose Blend of clear, deep shades of rose.

4258 Tetra White Creamy white changing to pure white with age.

Any of the above: $\frac{1}{2}$ oz. 50¢; $\frac{1}{4}$ oz. 85¢; $\frac{3}{8}$ oz. \$1.50; oz. \$7.50

3015 Tetra Vesuvius A striking addition to the Tetra Snaps—a warm shade of orange with a rosy flush on buds and tubes of the large flowers. $\frac{1}{2}$ oz. \$1.75; $\frac{1}{4}$ oz. \$3.00; $\frac{3}{8}$ oz. \$5.50

4253 Tetra Snaps Mixed Every color known in this glorious flower, plus some new ones. A most sensational snapdragon mixture. $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.25; $\frac{3}{4}$ oz. \$2.25; oz. \$6.00

Cream Puff Double Snapdragon

3011 The large, cream colored blossoms puff out with many extra frilled petals to create extremely full and graceful doubling and are perfectly set on the long, symmetrically tapered spikes. Plants are sturdy and neat; base-branching. 3 ft. tall. $\frac{1}{2}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75; $\frac{3}{8}$ oz. \$5.00

Glamour Shades Snapdragons

3006 Delicate blend of glamorous pastels—cream, pink and yellow enhanced by a pink flush. The large, fully double blossoms with gracefully ruffled petals highlight the lovely colors. Good base-branching plants with many strong lateral flower spikes. 3 ft. tall. $\frac{1}{2}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75; $\frac{3}{8}$ oz. \$5.00

Burpee's Tip Top Snapdragons

4396 Mixed Colors—Maximum Giant Rust-Resistant Main stem grows up to 4 ft. in height and the many lateral stems, coming from the base of the plant, are nearly as tall. Gorgeous colors. One of the best outdoor snapdragons.

½ oz. \$5.00; ¼ oz. \$1.50; 1/8 oz. \$2.50; oz. \$7.50

Rocket Snapdragons—All-America Winners

The outstanding feature of this new series of giant F₁ hybrid snapdragons is its ability to withstand hot summers. The plants bloom late with typical hybrid vigor and uniformity, producing robust plants, long spikes and closely set flowers. 2½ to 3 ft.

3148 Bronze Rocket

3146 Gold Rocket

3036 Orchid Rocket

3121 Red Rocket

3122 Rose Rocket

3038 White Rocket

4235 Rocket Mixed Each of the above colors in a lively mixture.

Any of the above Rocket Snapdragons: ½ oz. \$3.00; ¼ oz. \$1.00; 1/8 oz. \$2.00; oz. \$3.00; 1/4 oz. \$7.00; oz. \$25.00

Burpee's Extra Early Hybrid Snaps

4254 Mixed Colors Come into bloom while others are only in bud—important in sections with short summers. 2 ft.

½ oz. \$1.00; ¼ oz. \$1.75; 1/8 oz. \$3.00; oz. \$9.00

Burpeeana Giant Zinnias

Burpeeana Giant Zinnias

3073 Mixed Colors **NEW THIS YEAR** Gigantic flowers with quilled and ruffled petals in all the loveliest colors and combinations of colors in two-tone and three-tone effects. The full color range includes orange, gold, yellow, pink, rose and salmon shades, white, red, soft violet, purple and attractive combinations of these colors. Flowers are immense, up to 6 in. across, the first ones appearing when the plants are about 15 in. tall. A profusion of blooms follows on side branches all summer long. The ultimate height of the bushy, compact plants is about 2 ft. The medium-tall habit makes them especially valuable for beds, borders and low foundation plantings. $\frac{1}{8}$ oz. \$1.25; $\frac{1}{4}$ oz. \$2.25; oz. \$8.00

David Burpee Zinnias

4315 Mixed Colors Strikingly different; medium large, with petals attractively curled and quilled backwards so that only the colorful upper side is exposed. Another outstanding feature is the unusual range of colors; pastel shades predominate, lovely tones of apricot, soft cream, chamois, buff, terra-cotta, burnt orange, soft rose, and peach. Some flowers are of solid colors while others are combinations of two and three colors. The plants grow 3 ft. tall. $\frac{1}{8}$ oz. 40¢; $\frac{1}{4}$ oz. 60¢; oz. \$1.75; $\frac{1}{4}$ lb. \$5.00

Trail Blazer, F₁ Hybrid Zinnia

ZINNIAS

Burpee's Giant Hybrids

The loveliest flowers ever created. They include first and second generation hybrids, grow 5 in. and more across, many being of the informal ruffled type, some attractively curled, others gracefully quilled. The loosely arranged petals give the flowers an airy appearance, free of the stiffness of some other zinnia types. Plants are strong, free blooming, $2\frac{1}{2}$ to 3 ft. tall. All are ideal for garden decoration and cutting.

Giant Dahlia Flowered Zinnias

Outstanding for their long-stemmed flowers, which resemble giant dahlias, and for the lovely shades included in their range of color. They grow about 5 in. across and 2 in. and more in depth. 3 ft. high. Wonderful for cutting.

	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.	$\frac{1}{4}$ lb.

Burpee's Giant Tetra Zinnias

4425 Shades of Rose These giant tetraploid zinnias, 6 in. and more across, come in the loveliest shades of rose from salmon-pink through rose-pink and cerise-rose to cherry-red. Grow 2 to $2\frac{1}{2}$ ft. $\frac{1}{8}$ oz. 90¢; $\frac{1}{4}$ oz. \$1.50; oz. \$4.50; $\frac{1}{4}$ lb. \$14.00

Luther Burbank® Zinnias

4313 Light Shades Mixed Lovely, delicate pastel shades comprised of many self colors ranging from cream and primrose through delicate buff-yellow, canary yellow, ivory, soft salmon, warm rose, chamois, apricot, peach, bluish pink, salmon-pink to clear, bright rose. There are also unusual two- and three-color combinations of soft and light shades in some of the individual blooms. Flowers are deep, 5 to $5\frac{1}{2}$ in. across, and are composed of numerous big, flat petals curled under at the ends. Plants grow 3 to 4 ft. tall and are well branched. $\frac{1}{8}$ oz. 35¢; $\frac{1}{4}$ oz. 50¢; oz. \$1.35; $\frac{1}{4}$ lb. \$4.00

Burpee's Super Giant Zinnias

4314 Mixed Colors Flowers are truly giant, $5\frac{1}{2}$ to 6 in. across, in a full range of colors. Shades of cream, buff, apricot, salmon, rose and orange predominate, with a few yellow, white, scarlet and crimson blooms. One is impressed by the many two-tone and three-tone color effects seen in some of the flowers. Diversity of petal and flower form, together with a most amazing assortment of solid colors and color combinations, makes Burpee's Super Giants a most delightful blend of zinnias. The plants grow 3 ft. tall. $\frac{1}{8}$ oz. 35¢; $\frac{1}{4}$ oz. 50¢; oz. \$1.35; $\frac{1}{4}$ lb. \$4.00

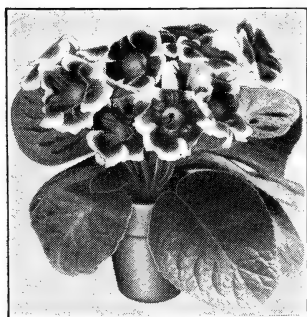

Burpee's F₁ Hybrid Zinnia

3133 Trail Blazer Brilliant red, medium-large double flowers are borne freely on strong bushy plants 2 ft. tall. Some of the flowers are semi-double and show a bright yellow center in pleasing contrast to the bright petals. The main value of Trail Blazer is its resistance to mildew, a disease which affects zinnia foliage. $\frac{1}{8}$ oz. \$1.75; $\frac{1}{4}$ oz. \$3.25; oz. \$12.00

Packaged Burpee Grass Seed is FOB Philadelphia, Pa., Clinton, Iowa or Riverside, Calif.

BURPEE GRASS SEED IN BULK

4914 Burpee's Fordhook Finest Lawn Grass Seed Burpee's Fordhook Finest is especially prepared from high quality seeds. It makes a smooth, green, velvety lawn with a thick bottom, free of clumps. Fine leaved and deep-rooted varieties of the most suitable grasses for making an even, thick mass of sod are used in this mixture. A small quantity of white clover has been included.

4903 Fordhook Finest, Treated Seed Same high quality mixture as above treated with Arasan and Rootone. Arasan protects seed from seed decay, damping-off, blights and root rots. Rootone helps to develop a quicker, heavier, thicker, drought-resistant turf the first season.

4922 Burpee All Purpose Brand Where durable beauty under heavy use is a requirement Burpee All Purpose Grass Seed is recommended. It is climate-blended to meet the soil and climate conditions prevailing in the area where sold.

4924 Burpee Luxury Brand This top grade blend of fine bladed, deep rooted perennial grasses will provide the ultimate in enduring lawn beauty. It is climate-blended to meet the soil and climate conditions prevailing in the area where sold. It is Arasan treated. Sure to give the best results in your area.

4911 Burpee's Sunnybrook® Brand Splendid mixture that will give a long lasting deep emerald-green sod. Blend of selected grasses for a beautiful and enduring lawn.

4913 Shady Nook Brand Suited for planting under shade trees or in shaded corners where grass usually does not thrive.

4905 Terrace Sod A blend of grasses which are deep rooted to withstand drought and hold the soil firmly and prevent it from washing away.

4912 Golf Links Only fine-bladed grasses which will withstand frequent close cutting and heavy trampling are used in this mixture. Particularly suited for fairways and lawns subject to hard use. Contains no white clover.

4916 Putting Greens Composed entirely of Bent Grasses with a preponderance of Creeping Bent. It makes a smooth, even turf that will withstand frequent close cutting and intense trampling.

4921 MERION Kentucky Bluegrass Dense, dark green lawn grass resistant to heat, drought and leaf spot. This new grass spreads more quickly than ordinary blue grass, has deeper roots and can be mowed more closely without harming it.

4904 White Dutch Clover Gardeners who prefer an extra heavy growth of clover in their lawn should add this at the rate of 4 ozs. to every 2 lbs. of grass seed. It is advisable to sow separately in order to effect a better and more even distribution.

Lawn from Burpee's Fordhook Finest Lawn Grass Seed

Insecticides, Hotkaps, Plant Bands, etc.

Blossom-Set

Just mix with water and spray whole plant. Stops blossom drop; makes blossoms set fruit chemically. Tomatoes ripen earlier, are larger, firmer, more delicious—many seedless. A hormone spray. U.S.D.A. tested.
9371—4 ozs. 65¢; 9372—1 pint \$1.70;
9225—12 oz. Aerosol \$1.70

50% Malathion Spray

A phosphate spray for the control of aphids, mites, mealy bugs, scale and many insects attacking flowers, vegetables, evergreens, ornamentals, fruit and shade trees. Excellent for fly and mosquito control.
9314—1 oz. 45¢ 9326—8 ozs. \$1.85
9323—4 ozs. \$1.15 9366—1 pt. \$2.80

Transplantone

The hormone-vitamin stimulant. An excellent starter for use when setting out plants in the soil such as seedlings, shrubs or trees. Used effectively when transplanting as it hastens the formation of new roots and reduces transplant shock. This means earlier and larger crops, particularly in dry weather.
9333—½ oz. packet 30¢;
9336—3 ozs. \$1.15; 9145—1 lb. \$3.60

1% Rotenone Dust (or Spray)

Use as an effective insect control right up until harvest time without fear of harmful residues. Controls a wide range of chewing and sucking insects on beans, cabbage, cucumbers and many other vegetables, also flowers. Will not injure tender plant foliage. Recommended for fleas and lice on pets.
9221—1 lb. canister 80¢;
9276—4 lb. bag \$1.90

Rootone

For better rooting of cuttings, seeds, bulbs. Also controls damping-off and other soil-borne disease. Dust seeds and bulbs before planting.
9334—¼ oz. packet 30¢;
9335—2 ozs. \$1.15; 9113—1 lb. \$4.50

Hypoxen Plant Food 7-6-19

A soluble fertilizer with Vitamin B₁ and all elements for strong, healthy plant growth.
9125—10 ozs. 95¢; 9406—2 lbs. \$2.35

Legume Aid

Treating seeds of legumes before planting causes nodules to develop on the roots. These nodules gather nitrogen from the air and convert it into plant food. Peas, Beans, Soy Beans, Sweet Peas, etc., show better blossoms and increased yield if the seed is treated.
9254—Garden packet, inoculates up to 5 lbs. of seed, only 27¢
9183—100 lb. Bean-Pea Comb. 60¢

Tree Tanglefoot

This specially prepared, sticky compound makes it absolutely impossible for creeping insects to advance past the section of trunk or vine where it is applied. Non-injurious. Economical. Easy to apply. 1 pound for 12-ft. band, 4 in. wide.
9356—6 ozs. 90¢; 9154—1 lb. \$1.50;
9404—5 lbs. \$6.50; 9523—25 lbs. \$24.00

Scalecide

Superior type oil for controlling scale, aphids, and mites by dormant spray. Safe and most effective spray to use on apples, peaches, etc., and other deciduous fruits; also trees, shrubs, vines, and evergreens.
9216—1 pint \$1.05; 9215—1 quart \$1.45;
9501—1 gallon \$3.25

Sperguson Seed Protectant

For use on seed prior to planting to reduce risk of seed decay and "damping-off". Protects most leaf, flower, vegetable seeds.
9202—1 oz. packet 45¢; 9206—5 ozs. \$1.65

50% DDT

A concentrated wettable powder—most economical form of DDT in common use.
9182—1 lb. \$1.15; 9405—4 lbs. \$2.25

Ra-Pid-Gro 23-21-17

Dissolves instantly. Seeds germinate faster, plants grow faster, sturdier. Use on seeds in row, sprinkle or spray on seedlings, spray on foliage all season. For bigger and better flowers, vegetables, lawns. Secret formula—23 elements, hormones, vitamins. The pioneer in foliar feeding.
9362—1 lb. can \$1.40;
9114—2 lb. can \$2.50

6% Chlordane Dust

Powerful and effective insecticide dust for the control of many crawling insects.
9252—1 lb. 75¢; 9407—4 lbs. \$1.80

45% Chlordane Spray

Widely accepted for control of destructive lawn and garden insects such as ants, chiggers, Japanese beetle larvae, cutworms, slugs, etc. Destroys household pests such as roaches, silverfish, crickets, etc.
9111—8 ozs. \$1.15; 9421—1 pint \$2.00

Du Pont's Fermate

Effective control for black spot and rust on roses. Controls scab, black and brown rots on apples, peaches, pears and grapes. Arrests molds, mildews, anthracnose and leaf spot on vegetable, flower and ornamental plants.
9133—9 oz. canister \$1.30

Du Pont's 50% Wettable Methoxychlor

This marvelous new insecticide spray because of its low order of toxicity to humans can be used close to harvest time. Safe on the most tender plants. Kills bean, potato, and Japanese beetles and many other insects.
9136—12 oz. canister \$1.80

Gro-Stuf 20-20-20 For Leaf or Root Feeding

Concentrated Soluble Fertilizer for Leaf or Root Feeding. Use on house plants, roses, flower and vegetable gardens, shrubs and lawns. Contains all the necessary chemicals plus hormones and essential mineral elements needed to make "stuffy" grow.
9394—5 ozs. 45¢;
9164—1 lb. \$1.30

Vermiculite

An ideal soil conditioner 100% mineral. Use indoors or outside. Light weight, easy to use, sterile. Excellent as seed starter or for rooting cuttings. Use for safer bulb storage.
9263—10 oz. bag 60¢; 9529—½ bu. \$1.20

Dusting Sulphur

Finely divided 95% sulphur fungicide and miticide dust containing a wetting agent. Can be used as a dust or spray. Recommended for control of mildew, black spot, etc. on roses; certain mites on lawns. Very effective for chigger control in flowers.
9166—2 lbs. \$1.00

5% DDT Dust

Highly effective and efficient ready-to-use insecticide for use in the control of Japanese beetle, flea beetle, leaf hopper, European corn borer, corn earworm, and other external chewing insects on fruits, vegetables, flowers and ornamentals. Use on bulbs.
9266—1 lb. canister 75¢;
9403—4 lb. bag \$1.60

Burpee's Tree Wound Dressing

Complete universal tree wound dressing for fungus diseases. Corrects and prevents rot in the crotches of trees and injuries as well as the wounds of pruning. Also a complete protection against insect work. Requires no mixing; nonpoisonous. Easily applied with brush. 100% active ingredients.
9324—½ pint 80¢; 9321—1 pint \$1.20

Tomato Dust

A combination insecticide and fungicide designed especially to provide a simple method of controlling insects and diseases such as early and late blight affecting tomatoes. Contains Basic Copper Arsenate and Basic Copper Sulphate.
9301—1 lb. canister 95¢;
9424—4 lb. canister \$1.95

Pano-Drench 4

Soil drench for greenhouses, controls damping-off of many flowers and ornamentals. Pano-Drench is a liquid concentrate . . . simple to prepare, easy to apply. Just add water . . . about 2 teaspoons to 3 gallons of water . . . and apply with an ordinary sprinkling can. This quantity treats about 200 square feet of soil.

You can treat your growing medium before or after seeding. Use it on cuttings, seed flats, propagating benches, transplant beds or flower pots.

9115—1 oz. bottle \$1.95
9116—4 oz. bottle \$5.95
9392—16 oz. bottle \$19.20

Morton Soil Drench-C

A concentrated fungicidal solution which is diluted with water at the rate of 1 fl. oz. per 35 gallons of water. This solution is applied at the rate of 1½ to 2 pints per square foot of soil for the control of damping-off organisms and other diseases carried in the soil.

It may be applied as a drench, spray or dip in the treatment of foliage of ornamentals and flowers, cuttings, bulbs and corms. For vegetables, use Morton Soil Drench-C only as a pre-emergence soil drench and only when seedlings are to be transplanted later to untreated soil. For non-food crops or plants, it can be applied to soil just prior to or after seeding or transplanting, or to plants at any stages of growth.

Morton Soil Drench-C is an economical and effective fungicide for the treatment of either small or large areas. 1 gallon per 4500 gallons of water will treat ½ acre of soil. Complete directions for its use are on the label of the container.

9555—1 gallon bottle \$15.95

Please write for price if interested in larger quantities.

Freight Prepaid on 100 lbs. or more, otherwise F.O.B. Philadelphia, Pa., Clinton, Iowa or Riverside, California.

Market-Paks

These attractive, convenient containers are the modern way to sell bedding plants—the self-service way. They save selling time. No more digging and wrapping plants from flats. They are less expensive than potted plants. Market-Paks make a nice display which sells more plants with less help. All varieties of flowers and vegetables demanded by home gardeners can be grown in them. Growers find them easy to handle and to plant. They are very durable, being made of hard pressed wood pulp which contains no material toxic to plant growth.

9532 4 $\frac{1}{2}$ x 5 $\frac{3}{4}$ x 2 $\frac{1}{2}$ inches deep. A budget-size package suitable for a dozen upright annuals such as Marigolds or Zinnias spaced close or $\frac{1}{2}$ dozen spreading plants such as Petunias or Pansies. This size is well adapted to areas and markets where younger plants are sold. Packed 250 per case—17 lbs. per case—Minimum order 250. 250—750—\$7.75 per case—\$31.00 per 1000 1000 or more—\$7.00 per case—

Burpee Peat Pots

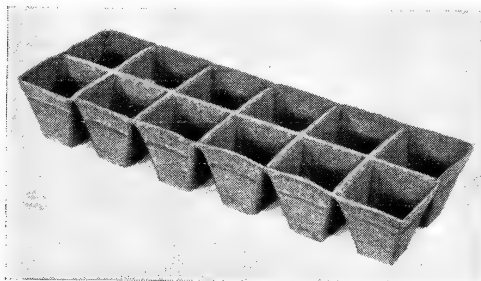

Start your seeds, plants or seedlings in the remarkable molded-type pot made in Norway; composed of 75% peat and 25% wood fibre to which soluble fertilizers have been added. Case Lots Only.

Size	Quantity per Case	Weight per Case	Price per Case
9546—2½ in. Round	3000	37 lbs.	\$22.50
9552—3 in. Round	1500	37 lbs.	19.95
9553—2½ in. Square	2500	37 lbs.	20.25
9556—3 in. Square	1000	40 lbs.	15.50

Prepaid on 150 lbs. or more anywhere in the Continental U. S. excluding Alaska—Otherwise F.O.B. Philadelphia, Pa., Clinton, Iowa or Riverside, Calif.

Peat Pots in the few years since they were first introduced, have brought many changes in the methods of growing flower, vegetable and nursery crops. In many instances they have replaced old-style pots, in others they have afforded an early start to plants that normally would be directly planted to bench, bed, field or garden. Roots grow right through the walls, permitting repotting into larger pots or benches without removing the peat pots. Commercial growers like these because they are inexpensive, easy to use, grow good plants, save the labor of knocking out of pots and are excellent for shipping. Home gardeners prefer peat-potted plants because they plant pot and they don't stop growing because there are no damaged roots. They make gardening easy.

9538 Jiffy Strip

Twelve Jiffy Pots, 1¼ in. square, 2 in. deep, fastened together in a strip measuring 3½ in. by 11¼ in. Packed 300 strips (3600 pots) per case. 35 lbs. per case. Minimum order is 1 case of Jiffy Strips.

East of Rocky Mountains and Gulf States:

Orders of 5 or more cases prepaid. Add \$5.00 per 1000 trays for delivery in area west of the Rocky Mountains and Gulf States.

Bird's Vita Plant Bands

(Sold in Case Lots only) F.O.B. Philadelphia, Pa., Clinton, Iowa or Riverside, Calif.

Bird's vita plant bands are designed to grow your plants inside while danger of frost is outside. Band fits standard size flats. Roots are not disturbed when transplanted out in open from bands, thus no shock or setback to plant. Bands are treated with nutrients to assure vigorous, well-balanced growth. **Vita Band No. 10** is used for short growing periods. Will usually contain root growth up to approximately 8 to 10 weeks. **Vita Band D** contains root growth until grower chooses to let root through band. Only quick, slight pressure is needed to crack band. Do not remove Vita Band D when transplanting. Band disintegrates in the soil. **Vita Band H** is the new nutrient-treated band which will control root growth of those plants which demand extra long growing periods.

Burpee Guarantee We guarantee the vitality and purity of Burpee's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon soil, cultivation, and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs.
